General:

1. Chairman's Remarks

2. Approval of Minutes

Ms. O'Connor moved to approve the minutes of the October 23, 2023 meeting. The motion was adopted unanimously.

Management Reports:

3. Communications and Report of Chief Executive Officer

Mr. Calderone reported on the following in his Communications Report for the month of November 2023

- Strong Financial Performance
- RAC & TAC Meetings held October 31, 2023.
- Airport hosted RPI at Million Air for their regional Services, Technology, Engineering and Mathematics on November 4.
- Grant funding for the Rehabilitation and Overhaul of elevators (5 of them) has been approved.
- Earned accreditation from Airport Council International for our ongoing commitment to identifying and reducing carbon emissions.
- We are coordinating with Shop Rite host a job fair.

4. Chief Financial Officer Report

Mr. Zonsius presented the Financial Report for the month of November 2023.

5. Project Development

Mr. LaClair presented the Project Development report for the month of November 2023.

6. Counsel

7. Concessions/Ambassador Program

Ms. Chadderdon presented the Concessions/Ambassador report for the month of November 2023.

8. Public Affairs

Mr. Smith presented a Public Affairs report for the month of November 2023.

9. Business & Economic Development

Action Items:

10. Authorization of Contracts/Leases/Contract Negotiations/Contract Amendments

10.1 Amendment No. 1 to Service Contract No. – SC-22-1128 Security Guard Services – Premium Investigations, LLC

Mr. Zonsius recommended authorization to approve Amendment No. 1 to Service Agreement, SC-1164 with GAT Airlines Ground Support Inc. for Acceptance and Inspection Services of Loading Dock Deliveries. He advised that in January 2023, the Board awarded Professional Services Contract No. SC-22-1128 Security Guard Services to Premium Investigations for security services at the following locations: 1. Security Gate 27; 2. Passenger Terminal Exit; and 3. Loading Dock with an hourly rate of \$38.48 and an overtime rate of \$53.50.

He advised the TSA, via TSA NA-2302, has directed enhanced screening for airport employees; and, the construction of the Terminal Connector has necessitated the hiring of additional personnel and security services to monitor curbside vehicular activities.

The Authority is requesting Additional Scope of Services to the existing contract for Security Guard Services to supplement the additional personnel at the following locations: 1. Curbside, including patrols of North and South Garages; and 2. Airport Employee Screening.

Ms. O'Connor moved to approve Amendment No. 1 Service Agreement SC-1164 with GAT Airlines Ground Support Inc. for Additional Scope of Services to the existing contract for Security Guard Services to supplement the additional personnel at the following locations: 1. Curbside, including patrols of North and South Garages; and 2. Airport Employee Screening.

The motion was adopted by majority with Mr. Heider recusing himself.

10.2 Purchase Order – Purchase of Two (2) MB Front Mount Brooms

Mr. Zonsius recommended authorization to approve the purchase of two (2) MB3 Front Mount Brooms. He advised these units will replace our current brooms, M31 and M32, which were both purchased in 2004. Purchase is authorized pursuant to Procurement Policy, Section 2.11(ii), centralized contract let by, Sourcewell Contract, Bid# 111522 in the amount of \$1,554,457. This project will be Airport funded (PFC's \$1,100,000 and Reserves \$454,457).

Mr. Heider moved to approve the purchase of two (2) MB3 Front Mount Brooms to replace current brooms, M31 and M32, which were both purchased in 2004 from Sourcewell Contract, Bid# 111522 in the amount of \$1,554,457. This project will be Airport funded (PFC's \$1,100,000 and Reserves \$454,457).

The motion was adopted unanimously.

11. Authorization of Change Orders

11.1 Change Order No. 3 – Contract No. 20-1075-FP Terminal Fire Alarm Replacement (Close-Out Change Order)

Mr. LaClair recommended authorization to approve Change Order No. 3 (Close-Out Change Order) for Contract S-20-1075-FP for Terminal Fire Alarm Replacement to Hewitt & Young Electric in the amount of \$294,115.54. He advised the The additional items of work include purchasing, installing and testing of new deluge controls, enunciator modules and additional alarm systems to bring areas in the Terminal that were deficient up to code with new alarm system, supplying and installing new modules where existing modules failed or did not exist to maintain the fire protection system currently in place while the new system is installed. A new system was installed in A-Concourse above the second floor, which was recently rehabilitated to make it code compliant to get a Certificate of Occupancy. Additional detection units needed to be installed in both the Verizon and AT&T rooftop cellular control rooms due to upgrades recently made by both carriers. This change order will be 100% Airport Funded from CPN 2002.

Mr. Pichardo moved to approve Change Order No. 3 (Close-Out Change Order) for Contract S-20-1075-FP for Terminal Fire Alarm Replacement to Hewitt & Young Electric in the amount of \$294,115.54. The motion was adopted unanimously.

12. Authorization of Federal and State Grants

13. Informational Only

14. Adoption of Budget 2024 in the amount of \$209,708,441 (includes \$143,296,004 of Contributed Capital) and authorization to transfer \$114,679 from the Authority to the Albany County Airport Authority OPEB Trust.

Mr. Heider advised the Finance Committee met on October 5, 2023 and the committee recommends Adoption of the 2024 Airport Operating Budget in the amount of \$209,708,441 (includes \$143,296,004 of Contributed Capital) and also recommends authorization to transfer \$114,679 from the Authority to the Albany County Airport Authority OPEB Trust.

Mr. Heider moved to adopt the 2024 Airport Operating Budget in the amount of \$209,708,441

(includes \$143,296,004 of Contributed Capital) and also recommends authorization to transfer \$114,679 from the Authority to the Albany County Airport Authority OPEB Trust. The motion was adopted unanimously.

Operations	2.7	(5.4)	(0.3)	0.4

	Month	
	Sep22	Sep23
Destination Airports	20	19
Scheduled Monthly Flight	1,208	1,202
Average Daily Flights	40.3	40.0
Pax Lift (Pax Seats)	132,256	135,091
Enplanements	110,210	113,844

FINANCIAL INFORMATION

Cash Position – Unrestricted (Operating)

The Airport continues to maintain a strong cash position. The Statements of Net Position provided on Page 4 reports unrestricted cash of \$39,076,761 and equates to approximately 12.40 months of operating reserves (Notes to Financial Statements #2, Page 8).

Cash Position – Restricted

Restricted cash available for capital purposes is as follows:

Projects	\$ 5,289,041
Projects – PFC	9,959,695
Projects – Other	1,393,915
	<u>\$16,642,651</u>

Accounts Receivable

The Accounts Receivable balance is approximately 5.00 of average day total operating revenues.

Equity – YTD Earnings

The Summary of Revenues, Expenses and Net results is provided on Page 5. The Airport recorded a change in net position for the month and year-to-date shown as follows:

	Month	YTD
Airport Operating	\$ 1,651,242	\$ 13,062,103
FBO Profit	34,979	2,049,323
	1,686,221	15,111,426
Other Rev/Exp (d.ser.)	(146,307)	2,292,083
Capital Contributions	-	6,800,101
Airline Incnt. Payts.	(17,515)	(222,156)
	(163,822)	8,870,028
	\$ 1,522,399	\$ 23,981,454*

*Please note, depreciation is not recorded on the monthly financial statements.

Operating Revenues

Monthly operating revenues increased approximately \$384K from the same month the prior year. YTD operating revenues increased approximately \$3,272K over the same time period the prior year.

Airport Operating Expenses

Monthly operating expenses were approximately \$2,249K and \$2,699K for 2023 and 2022, respectively. YTD operating expenses were \$23,535K and \$22,859K for 2023 and 2022, respectively.

AIRPORT OPERATING BUDGET

Monthly airport operating revenues were favorable to budget by approximately **\$661K**, due in large part to the increases in Landing Fees, Terminal Rent Fees, and Rental Car revenue. Monthly airport operating expenses compared to budget were favorable by approximately **\$452K**.

YTD airport operating revenues were favorable to budget by approximately **\$5,263K**. YTD airport operating expense were favorable by approximately **\$2,954K**.

MILLION AIR FBO OPERATIONS

Revenues derived from the sale of JetA and AvGas fuels is the largest contributor of FBO revenue. Below are the fuel sold in gallons for both JetA and AvGas:

	2023 Current Year versus			
	2023 Budget	2022 Month	2022 YTD	2022 Prev. 12 Mo.
JetA (gals)	(3.4%)	1.5%	2.7%	(3.7%)
AvGas (gals)	75.9	(6.4)	8.6	14.9

FBO Summary of Revenues, Expenses and Net results are shown on Page 7.

The FBO had operating profits of approximately **\$35K** and **\$2,049K**, for the month and year-to-date, respectively, both favorable as compared to the budget.

Monthly FBO operating revenues were unfavorable to budget by approximately **\$42K**. Monthly FBO COGS (cost of goods sold-fuel) compared to budget were favorable by approximately **\$60K**. Monthly FBO operating expenses compared to budget were unfavorable by approximately **\$108K**.

YTD FBO operating revenues were favorable to budget by approximately **\$1,092K**, due in large part to Deicing Services. YTD FBO COGS (cost of goods sold-fuel) compared to budget were favorable by approximately **\$142K**. YTD FBO operating expenses compared to budget were favorable by approximately **\$84K**.

Notes to Financial Statements

1. Accounting Basis

This financial information is presented for the purposes of comparing budget to actual results and for indicating generally how revenues and expenses have compared to budgeted revenues and expenses through on a monthly basis. The financial information presented herewith is prepared on the Albany County Airport Authority's budgetary basis of accounting.

This report includes preliminary operating and performance statistics, and financial forecasts based upon the budgetary basis of accounting estimates that involve uncertainties that could result in actual financial results differing materially from preliminary estimates.

2. Cash Reserves

Service Contract: *Scope Change - Professional Services Contract No. SC-22-1128 Security Guard Services*

Premium Investigations

CONTRACT AMOUNT:

Hourly Amount: *Regular Rate: \$38.48
Overtime Rate: \$53.50*

BUDGET INFORMATION:

Anticipated in B2024 Budget: Yes No NA
Funding Account Number: 24-44005-20-0000

JUSTIFICATION:

In January 2023, the Board awarded Professional Services Contract No. SC-22-1128 Security Guard Services to Premium Investigations for security services at the following locations:

- 1. Security Gate 27; and,*
- 2. Passenger Terminal Exit; and,*
- 3. Loading Dock.*

Since then, TSA, via TSA NA-2302, has directed enhanced screening for airport employees; and, the construction of the Terminal Connector has necessitated the hiring of additional personnel and security services to monitor curbside vehicular activities.

Although Budget 2024 includes appropriations for the hiring of eighteen (18) Security Officers, the Authority is requesting Additional Scope of Services to the existing contract for Security Guard Services to supplement the additional personnel at the following locations:

- 1. Curbside, including patrols of North and South Garages; and,*
- 2. Airport Employee Screening.*

Amended Scope

AMENDED SCHEDULE "A"

SCOPE OF WORK

A. Objective

The purpose of this RFP is to enable the Authority to analyze and compare proposals for Security Guard Services at Albany International Airport.

B. Scope of Services

The Airport Authority is responsible for providing security guard services currently at three locations at the Albany International Airport.

Location 1:

Security Check Point Exit Lane Coverage
Airport Main Terminal, Second Floor

The exit lane monitor must prevent unauthorized persons or objects from entering the terminal (sterile area) via the exit lane. The Transportation Safety Administration (TSA) staff maintains this location until 8:00 PM, daily

Time of Service: Daily from 8:00 PM to approximately 1:00AM, 7 days a week

Last arriving flight is scheduled for 0030 (12:30am). The exit lane monitor must wait until the last passenger has cleared the terminal (approx. 30 minutes after the flight arrives). This end time may change due to airline schedule changes, late arrivals and delays.

Location 2:

Security Gate Access Coverage (Gate 27)

Proposer is to provide gate coverage at Airport Access points. The assignment is 24 hours per day, 7 days per week. The proposer's employees will be stationed in a guard booth at one (1) of the Airport's remote access gates.

The primary duty is to verify both vehicle operator and passenger(s) Airport identification. The individual(s) conducting this verification process must momentarily make physical contact with Airport identification and visually inspect it in order to ensure a positive photographic comparison, it will be necessary to determine if the identification is expired or has been altered.

Vehicle inspections must be conducted in accordance with the criteria listed below:

1. Visually inspect the interior of the vehicle by looking through the windows or opening the door(s).
2. Open the trunk and inspect or visually inspect bed / cargo areas of trucks.
3. Passenger compartments of the vehicle, vehicle trunk or the bed/cargo area of a truck must be inspected.
4. Other duties as directed by Airport Security Office.

Location 3:

Loading dock/vendor inspection:

Primary duty is to inspect all vendor goods to prevent unauthorized items (prohibited items) from entering the terminal (sterile area).

These times will be re-evaluated periodically and subject to change if concessions and deliveries increase/decrease.

Loading Dock	Monday thru Friday	0600-1800
	Saturday	0800-1630
	Sunday	0800-1800

Anticipated start date for services at all locations to begin on or around March 1, 2023.

Location 4:

Curbside

Primary duty is to monitor and assist with traffic along the terminal frontage as well as provide for increased security of public areas. This includes:

- Responsible for maintaining terminal frontage safety, through means of ensuring the flow of traffic, stopping vehicles for passenger safety during crossings and reporting security concerns to Airport Operations.
- Ensuring No Standing of vehicles, unless actively loading or unloading.
- Ensuring No Vehicle is left Unattended at the Curbside, Loading Dock, or other parking areas within 300ft of the Terminal Facility.
- Guards will report unattended vehicles to the Airport Operations Office and include such vehicle information as: location, license plate, make and model and color.
- Perform security patrols of the North and South Garages and employee lot during periods of reduced terminal frontage traffic. The terminal curbside must be the primary post during times of increased passenger/vehicle activity.
- Periodic patrols for the lobby looking for suspicious activity, unattended bags and verify baggage belt/carousel doors are secure when not in use.
- Report unattended bags to Airport Operations and/or ACSO promptly. No items shall be touched until inspected and removed by ACSO. This includes luggage, backpacks, purses, shopping bags, purses etc.

All employees must in uniform and wear reflective safety coats, jackets, or vests.

This assignment is 24 hours per day, 7 days a week.

Location 5:

Aviation Worker Screening:

Primary duty is to conduct aviation worker screening to detect and prevent prohibited items from entering the Secure and Sterile Areas of the Airport.

The must be performed by 2-person teams at random doors that access the Sterile and Secured Areas. The number of hours per week may change as access requirements are periodically evaluated.

Currently the hour requirement is 26 hours per week. The scheduling of the locations and hours, by regulation, is random and can be anytime and day. There are times when there may be more than one screening operation occurring simultaneously.

Screening will be done using a combination of metal detector wands and pat downs/body searches if necessary. All property being worn and carried by an individual must be inspected.

There should be 5 guards per shift to fulfill the Curbside requirements above and maintain the ability to conduct aviation worker screening at more than one access point/door, if necessary.

All employees **MUST** be in uniform at all times. The uniform will NOT be provided by the Airport Authority.

Proposer's employee(s) will be required to successfully complete a fingerprint based CHRC (Criminal History Records Check) and TSA (Transportation Security Administration) Threat Assessment, which must be conducted and reviewed by the Airport Security Office. There is a fee of \$49.25 per applicant. This fee will be paid by the awarded proposer.

Employee(s) will be required to complete security training, be issued an Airport badge and receive additional training specific to required duties. The Airport Authority will provide proper training to the awarded contractor for each post. This usually takes 15-30 minutes for a review of proper procedures. The Airport badge required class can take approximately 1 to 1.5 hours. This would not be billable to the Airport.

AGENDA ITEM NO. 10.2

Purchase: Two (2) MB Front Mount Broom

**M-B Companies, Inc.
201 MB Lane, Chilton, WI 53014**

PRODUCT CODE	DESCRIPTION	QTY	UNIT LIST PRICE	EXT. AMOUNT
MB3-Broom	Front Mount Broom - The MB3 is a versatile custom cab forward airport chassis designed for front mounted plows, front mounted brooms, tow brooms, underbody scrapers, de-icing systems, and other attachments. 375 HP electronic controlled T4F EPA emission certified diesel chassis engine is standard. The MB3 axles are designed with sharp steering cramp angles providing for smaller turning circles and maximum maneuverability. Coupled with electronic automatic traction control the torque proportioning transfer case reduces tire wear while assuring the most efficient use of vehicle power. The MB3 broom features the 4616 pivot lift airport broom package which includes: 16 foot broom length, 13.1 foot swept path, 46 inch diameter, 375 HP electronic turbocharged T4F EPA certified diesel engine, dual impeller air blast system, and up to 475 rpm broom speed with up to 2,656 ft-lbs available torque at broom head. The standard broom is free floating with weight transfer, DIN flat face broom to chassis hitch, and has two single tire caster assemblies. All poly wafer type bristles are standard. Broom is reversible to left and right up to 35 degrees.	2	\$ 693,088.00	\$ 1,386,176.00
<i>Bulleted Items are Included or are features of the Base Unit</i>				

- Cab forward, rear engine chassis with four wheel Tru-Trac™ 4x4 drive
- Standard 164 inch wheel base with sharp steering axle cramp angles efficiently provide small turning circles
- Butterfly type hood enclosure for both chassis and auxiliary engines, opens with power assist for maintenance and repair access.
- Right side of drive engine enclosure rotates upward to allow full access to engine for maintenance and repair.
- 375 HP electronic turbocharged diesel T4F EPA emission certified chassis engine, includes ether start
- Allison RDS 4000, 6 speed transmission
- M-B "Torque Flow" transfer case featuring the Eaton Tru-Trac automatic differential. Single speed produces a wide torque / speed range. for low speed torque and speeds up to 45 MPH. Automatically and constantly proportions torque delivery between front and rear axles. Uses helical gears for positive and smooth torque transmission
- M-B 29,000 pound front drive / steer axle with limited slip differential.
- Dana 23,000 pound rear drive axle with limited slip differential.
- Tapered spring suspension provides smoother ride and increased driver control
- ABS air brake control system (4-channel) with automatic traction control
- Dual 125 gallon fuel tanks for drive and broom engines for up to 12 hours of operation
- 445/65R22.5 LR L traction tread front and rear tires
- Integrated microprocessor CAN bus controls, electric over hydraulic, for entire unit.
- M-B two-man, air ride cab: Panoramic view. All flat glass for easy and local replacement. Forward slope windshield. Four windshield wipers with three motor system for reduced linkage issues and provide better snow removal on windshield. Air-ride driver and passenger seats with adjustable lumbar suport. Standard features include FMVSS compliant lighting, side light bars, heated windshield, cab heater, heated power mirrors, power windows, cab mounted FAA approved flashing strobe
- Operator friendly, cab integrated microprocessor CAN bus controls with MDC (Monitor, Diagnose, Control)) color screen display for chassis and equipment, with CAN joystick for attachment operation

JUSTIFICATION:

Request for authorization of Change Order #2 for Contract S-20-1075-FP for Terminal Fire Alarm Replacement to Hewitt & Young Electric of Rochester, NY in the amount of \$294,115.54 (PFC funded). The additional items of work include purchasing, installing and testing of new deluge controls, enunciator modules and additional alarm systems to bring areas in the Terminal that were deficient up to code with new alarm system, supplying and installing new modules where existing modules failed or did not exist to maintain the fire protection system currently in place while the new system is installed. A new system was

AGENDA ITEM NO: 11.1

MEETING DATE: November 6, 2023

installed in A-Concourse above the second floor, which was recently rehabilitated to make it code compliant to get a Certificate of Occupancy. Additional detection units needed to be installed in both the Verizon and AT&T rooftop cellular control rooms due to upgrades recently made by both carriers.

CHIEF EXECUTIVE OFFICER'S RECOMMENDATION:

Recommend approval.

FINAL AGREEMENT SUBJECT TO APPROVAL BY COUNSEL: YES NA

PROCUREMENT DEPARTMENT APPROVAL:

Procurement complies with Authority Procurement Guidelines and Chief Financial Officer has approved. YES NA

BACK-UP MATERIAL:

RE: Change Order #2

To Whom It May Concern:

Hewitt Young Electric, LLC. has been approved to proceed with the following PCOs, and is looking for a Change Order (CO-02) in order to bill for that work, all of which has been completed.

PCOs to be included in this Change Order (CO-02) are listed out below:

- PCO-012 Extended General Conditions: \$90,000.00
 - PCO-013 Additional Devices in the AT&T Room: \$4,400.00
 - PCO-014 Additional Devices in the Verizon Room: \$12,485.00
 - PCO-015 Smoke Hatches and Purge Fans: \$10,280.00
 - PCO-016 Addition of Deluge: \$35,465.00
 - PCO-017 Addition of Music Mute Module: \$4,270.00
 - PCO-018 Delta and B-126A RFI 32: \$3,310.00
 - PCO-019 Damaged Smoke at B111: \$457.00
 - PCO-020 RFI 33R1, 34, 35: \$6,127.61
 - PCO-021 RFI 36 Elevators 6, 8, 12 Added Modules: \$6,240.51
 - PCO-022 T&M Invoice 5399: \$8,035.97
 - PCO-023 RFI 34: \$2,286.17
 - PCO-024 RFI 37: \$6,005.54
 - PCO-025 RFI 38: \$9,539.30
 - PCO-026 Additional Devices from Zak Geddies Report: \$19,599.01
 - PCO-027 Additional Pull Stations from Zak Geddies Report: \$21,300.59
 - PCO-028 Heat Detector Adds: \$17,899.14
 - PCO-029 AV Adds: \$36,414.70
- TOTAL: \$294,115.54**

Total final contract amount should equal \$1,874,221.54 after issuance of CO-02. Please advise if you have any questions or concerns here. Thank you!

Regards,
Nick Dooley
Hewitt Young Electric, LLC.

Date: November 2, 2023
RE: Adoption of Annual Budget for the Year Beginning January 1, 2024

Attached for your review are the following:

- ➔ Annual Budget for the Year Beginning January 1, 2024 (Draft #2); and,
- ➔ Budget Comparison with prior years actual results (Exhibit A); and,
- ➔ Use and Lease Agreement Rates & Charges Summary.

INTRODUCTION

The Annual Budget for the Year Beginning January 1, 2024 (“Budget 2024”) provided on September 18, October 5 and October 11, 2023 was updated and revised. Budget 2024 was further revised after October 11th to include amendments necessitated by the inclusion of additional personnel and security contract services for enhanced airport employee screening purposes per the Transportation Security Administration, these revisions are reflected as follows:

	2024 Budget Draft 2	Revisions	2024 Budget Draft 3
Operating Revenue - Airport	\$ 49,666,389	\$1,225,746	\$ 50,892,135
Operating Revenue – FBO	12,889,430	-	12,889,430
Other Income	3,756,194	-	6,750,600
Contributed Capital	<u>139,176,276</u>	<u>-</u>	<u>139,176,276</u>
	208,482,695	1,225,746	209,708,441
Operating Expense - Airport	38,801,900	1,295,402	40,097,302
Operating Expense - FBO	10,476,951	-	10,476,951
Other Expense	800,000	-	800,000
Debt Service	9,933,400	-	9,933,400
Capital Expenditure	<u>143,296,004</u>	<u>-</u>	<u>143,296,004</u>
	<u>203,308,255</u>	<u>1,295,402</u>	<u>203,308,255</u>
	\$ 5,174,440	\$ (69,656)	\$ 5,104,784

The \$1,295,402 increase in expenses are itemized as follows:

- ➔ Eighteen (18) Security Officers \$ 757,381
 - ➔ Add’ Benefits (Social Security and Insurance) 238,020
 - ➔ Contracted Security Services 300,000
- \$1,295,402

ECONOMIC DRIVERS

There are three airport economic drivers; enplanements, operations, and cargo. The primary economic driver is enplanement activity, which affects parking and concession revenues, and ultimately airline revenue (landing fees, terminal and apron rents, and passenger boarding fees). To a much lesser extent, the general aviation operations (landing or takeoff) will affect Fixed Based Operator (FBO) revenue vis-a-vie fuel purchases. Cargo is the third airport economic driver the will influence cargo aircraft landing and apron revenue.

The affects pf COVID-19 continue to wane and enplanements are expected to increase but not yet exceed pre pandemic levels. Based on available information, 2024 enplanement levels are projected at 1,425,000, and increase of 25,000 enplanements from Budget 2023. Accordingly, the budget has been prepared using this reduced projection.

	2023 Budget	2024 Budget	Variance incr/(decr)	Percentage incr/(decr)
Enplanements	1,400,000	1,425,000	25,000	1.79%
Operations	56,000	54,400	(1,600)	(2.86%)
Cargo (tons)	22,050	21,450	(600)	(2.72%)

SUMMARY OF REVENUES AND EXPENSES

Exhibit A, Budget Summary, provides a comparison of Actual 2021, Budget 2022, Projected 2022 Projected amounts, and Budget 2023 amounts, in addition to the actual and percentage variance from the Budget 2022.

Airport and Fixed Base Operator

Airport Operating Revenue \$50,892,135

Budget 2024 Revenues increased \$9,113,356 from the prior year.

Airfield Charges, \$11,712,088

Airfield Charges predominantly include airline and cargo landing fees (\$8,514,360), apron fees (\$990,524) and revenues generated from property leases located on the airfield, including the Cargo Building (\$1,100,000).

Terminal Rentals, \$7,120,268

Terminal Rental fees for airlines (\$6,039,209) TSA, Passenger Boarding Bridge fees, and other non-airline tenants.

Ground Transportation, \$19,129,975

Revenue derived from parking operations (\$18,548,250) and Transportation Network Carriers (UBER/Lyft) (\$336,000).

Concessions, \$9,653,379

Fees charges for rental car services (\$6,555,000), food and beverage (\$1,453,500), and retail (\$1,083,000).

Other Airport, \$3,276,424

Lease revenue derived from land, building, and hangars.

Airport Operating Expense, \$38,801,900

As in the previous year, the Airport operating activities have been separated from those of the FBO activities. The segregation allows for a better financial understanding of each entity based on its own activities.

Total Budget 2024 Airport Budget Expenses increased \$3,087,231 from the prior year, based, in part, to the increase passenger activity. Airport operating expense includes all expenses that relate to the day-to-day operations of the airport and comprise; Personnel Salaries, Wages and Benefits; Utilities & Communications, Purchased Services, Materials & Supplies, Offices, Administration and Noncapital Equipment.

Personnel Salaries, Wages and Benefits, \$19,623,004

Similar to other types of service provider industries, Personnel Salaries, Wages and Benefits is 48.9% of the operating budget. Employee Benefits are combined with Personnel Salaries and Wages as these costs are a necessary and a direct cost for each employee. Total benefit costs are 52.3% of total salaries and wages (51.2% in B2023).

Personnel Salaries, Wages and Benefits are driven by the staffed positions of the three entities included within the Authority’s budget shown as follows:

	Budgeted Staffed Positions		
	2023		2024
	Budget	incr/(decr)	Budget
AvPORTS, LLC	175 ⁽¹⁾	19	194
Million Air	35 ⁽²⁾	1	36
ACAA	<u>23</u>	<u>-</u>	<u>23</u>
	233	22	253

⁽¹⁾ Positions added in B2023

⁽²⁾ Positions should have been reflected as 36

<u>Positions added in Budget 2024</u>	<u>Change</u>
AvPorts, LLC – 20 Terminal, Environmental Services Technician	1
AvPorts, LLC – 20 Terminal, Assistant Facilities Manager	1
AvPorts, LLC – 41 Operations, Airport Duty Managers	2
AvPorts, LLC – 41 Operations, Security Officers	18
AvPorts, LLC – 42 ARFF, Firefighter / Safety Officer	2
AvPorts, LLC – 59 Airport Management, Communications Director	1
AvPorts, LLC – 59 Airport Management, Safety and Health Manager	1
AvPorts, LLC – 61 FBO GA, Customer Service Mgr.	1
AvPorts, LLC – 69 FBO Admin. Manager	1
 <u>Positions reduced in Budget 2024</u>	
AvPorts, LLC – 20 Terminal Custodians	(6)
AvPorts, LLC – 43 Security	(1)
Million Air – 60 FBO Commercial, Facilities Manager	(1)

Airport Operating Expense, \$38,801,900, continued

Utilities & Communication, \$3,325,301

Utilities & Communications expenses include those for electrical (\$2,466,250), natural gas (\$378,366), and telephone services, and, internet and cable television.

Purchased Services, \$7,733,576

Purchased (Contractual) Services include those fees for public safety (\$2,790,541), janitorial services (\$844,168), security services (\$775,545), risk management, legal, appraisal, engineering, advertising and professional management fees.

Materials & Supplies, \$5,804,525

Materials & Supplies are commodity type expenses consumable within one year that include, snow removal/deicing materials, lighting supplies, runway painting supplies, fire retardant foam, and supplies for vehicles/equipment and building maintenance.

Office/Administration, \$2,695,244

Office/Administration expenses include computer hardware & support, payroll services, office supplies, outside printer services, and office equipment rental.

Non-Capital \$915,650

Non-Capital Equipment includes expenditures for equipment that is below a \$50,000 threshold or does not qualify as a capital expenditure

FBO Operating Revenue, \$12,889,430

Total Budget 2024 FBO Revenue increased \$1,472,552 or 12.9% from the prior year.

FBO Revenues, \$12,889,430

FBO Revenues are derived from the operation of the Fixed Base Operator (FBO) and includes sales from the fueling (\$7,874,350) and deicing of aircraft (\$1,499,450).

Fees for small and large t hangars are increasing from \$3.86 (sqft per annum) to \$4.44, and \$3.07 to \$3.91, respectively.

FBO Operating Expenses, \$10,476,951

Total Budget 2023 FBO Expense increased \$304,025 or 3.0% from the prior year.

FBO Cost of Goods Sold (COGS), \$5,733,158

FBO COGS are for the purchase of JetaA (\$3,740,000) and AvGas fuels (\$320,850) and aircraft deicing materials (\$1,014,958).

FBO Expenses, \$4,743,793

FBO Expenses include Salaries and Other Employee Benefits, Utilities, Services, Material & Supplies, and Office Expenses.

Other Income, \$6,750,600

Total Budget 2024 Other Income increased \$760,566 (excludes B2023 CARES Funding or (12.6%) from the prior year.

Other Income, \$6,750,600

Other Income predominantly includes Passenger Facility Charge revenue derived from enplaned passengers (\$5,443,500) at \$4.50 per enplanement. Also included is interest revenue, \$800,000.

Other Expense, \$800,000

Costs associated w the Line of Credit for the Terminal Connector Project.

Debt Service, \$9,933,400

Debt Service includes principal and interest on seven (7) series of outstanding Authority bond debt issues, in addition to bond issuance cost.

Capital Expenditures, \$143,296,004

Capital expenditures are expenditures for infrastructure, equipment, and rehabilitations that generally have a useful life of greater than five (5) years.

Contributed Capital, \$139,176,276

Contributed capital includes those grant funds received for the reimbursement of capital expenditures.

AIRLINE RATES AND CHARGES

Exhibit B provides the 2024 Airline Rates and Charges based on the budgeted Airport revenues, expenses, debt service and other charges.

The 2024 Operating Budget will result in Airline Capital Contribution of \$3,992,411 and this is based upon the Airline Use Agreement. Funds remaining for Revenue Sharing between the Signatory Airlines and the Airport will be \$6,679,073 of which \$3,339,536 will go to the Airlines, \$2,939,536 will go to the Authority and \$400,000 will be used to fund the anticipated cost of Air Service Incentive Program costs. The 2024 Operating Budget provides for a debt service coverage ratio of 2.32, an increase from the budgeted ratio of 2.13 for B2023 and an increase of an actual ratio of 2.19 in 2022.

The rates and charges shown for 2024 Operating Budget are dependent upon actual Airport activities.

PROJECTED 2023 END OF YEAR SETTLEMENT WITH AIRLINES

Based upon revenues and expenses compiled through August 30, 2023, the estimated 2023, revenues to be shared between the Airlines and the Airport Development is approximately \$9,969,701. The projected settlement amount is still subject to change based upon actual results through the remainder of the year.

ADOPTION OF 2024 OPERATING BUDGET

Based upon all of the above, the Budget 2024 is recommended for adoption at the November 6, 2023 Board Meeting resulting in the imposition of the proposed Airline rates and charges on January 1, 2024. Budget 2024 will require on-going monitoring and management during the course of 2024 and may require revision to address significant adverse developments. Upon adoption of the budget, Airline Rates and Charges can only be adjusted during the year under more limited circumstances which include: provisions for adjustment if revenues from rates and charges are projected to be off by more than ten (10) percent; a provision for adjustment if debt service coverage is projected to be less than one-hundred-twenty-five (125) percent of net revenues; or in accordance with a financing resolution adopted by the Authority.

EXHIBIT A
Budget Summary

	Actual 2022	Budget 2023	Projection 2023	Budget 2024	Variance	Percentage Change

November 6, 2023

Samuel A. Fresina, chairman;
Board Members, Albany County Airport Authority;
Philip F. Calderone, Esq;
Fellow Employees:

Presented herewith is the 2024 Annual Budget for the Albany County Airport Authority as approved by the Board on November 6, 2023.

This budget incorporates the operations of two companies that operate under cost recovery/reimbursement agreements with the Authority: AFCO AvPORTS Management, LLC (d/b/a AvPORTS), responsible for the daily operations of the Airport; and, REW Investments, Inc., (d/b/a Million Air-ALB) responsible for the daily operations of the Fixed Base Operation (FBO).

This budget document is divided into six components: Budget Message, Department Overview and Detail, Debt Service, Capital Budget, Rates & Charges and Supplemental Information.

BUDGET OVERVIEW

The Authority is now in a period of post-pandemic operations as business and leisure travel resumes. Year-end 2023 enplanements of 1,340,000 are estimated, a 11.8 percent decrease from 2019’s 1,520,000 enplanements. The Authority is confident in the airport’s future growth and is expecting to surpass 2019 enplanements in 2026.

Budget 2024 was prepared based on 1,425,000 enplanements, approximately 93.8 percent level of 2019 enplanement activity. With this number of enplanements, the combined operating revenues of the airport and the FBO are budgeted at \$63,781,565, an increase of \$5,494,151 from Budget 2023. Combined operating expenses are budgeted at \$50,574,253, an increase of \$4,686,660 from Budget 2023.

Budget 2024 priorities remain as in previous years as follows:

- Maintaining a safe airport; and,
- Increasing liquidity by controlling costs; and,
- Updating facilities and equipment; and,
- Providing necessary resources for Staff.

The achievement of these priorities, however, are challenged in this post COVID-19 era. The COVID-19 pandemic made readily apparent the difficulty in financial/budget management of an airport that has disproportionate variable revenues versus fixed costs. Approximately 75 percent of the airports revenue is variable based directly on the number of airport passengers, i.e. revenues derived from parking, concessions, and rental cars. As passengers in/decrease, so does 75 percent of the airport’s corresponding revenue. Unlike the revenues however, the costs of operating the airport are predominantly fixed, attributable largely to personnel expenses. Regardless of the number of passengers, the number of personnel, their salaries and wages, and benefits remain the same or moderately increase with annual pay adjustments. To address this issue, the Authority’s action is to diversify its revenue portfolio with non-aviation fixed revenue streams including off-airport leasing and development.

Unlike in the previous three (3) years, the Authority no longer has the option to lessen the impact on operating revenues with additional CARES Act (CRRSA) funding. This funding has all expired.

As our times become more certain, Staff remains steadfast in efforts to, not only maintain, but enhance a safe airport and assure it’s financial survivability for many years to come.

OVERVIEW AND ECONOMIC CONDITIONS

The economic barometers of the airport - enplanements, operations and cargo tonnage - have been adjusted to reflect the recovery to pre-pandemic levels. Expected recovery to pre-COVID levels is not expected until 2026:

	Enplanements	Operations	Cargo Tonnage
2019	1,518,969	60,748	20,009
2020	520,029	43,745	21,163
2021	976,037	47,849	23,049
2022	1,290,529	53,726	22,000
2023E	1,340,000	53,796	21,100
2024E	1,425,000	54,400	21,450

OVERVIEW AND ECONOMIC CONDITIONS, continued

The best measurement of a region’s economy is the unemployment rate. As shown below, the unemployment rate remained stable for the past five years, save the COVID-19 year.

	Capital Region	State of New York	United States
2018	3.5%	4.0%	3.9%
2019	3.5	3.9	3.6
2020	5.0	8.8	6.7
2021	2.6	5.4	3.9
2022, thru Jun	2.9	4.4	3.6
2023, thru Jul	2.9	3.9	3.5

PROFILE

The Albany International Airport (“ALB”) is categorized by the Federal Aviation Administration (“FAA”) as a small hub airport and comprises 1,164.9 acres. The Airport is served by five legacy, one ultra low cost passenger carrier (Frontier vacated ALB in 2022) with enplanements as follows:

Enplanements	2019	2021	2022
Allegiant	78,107	50,033	71,337
American	312,378	222,576	280,878
Delta	250,816	161,142	260,238
Frontier	60,804	31,693	38,284*
JetBlue	92,149	75,211	90,792
Southwest	488,147	319,869	365,474
United	230,993	114,964	182,251
Others (Charters)	<u>5,572</u>	<u>549</u>	<u>1,275</u>
	1,518,969	976,037	1,290,529

Air cargo services are provided primarily by two cargo carriers as follows:

Cargo (in tons)	FY2021 Cargo	FY2022 Cargo	FY2023E Cargo
FedEx	9,294	9,200	9,300
United Parcel Service	12,202	11,000	11,000
Others	<u>1,134</u>	<u>1,100</u>	<u>1,150</u>
	22,630	21,300	21,450

ALB’s Primary Air Trade Area comprises an area within a 60 to 70 mile radius of the Airport. This area encompasses a total of 13 counties, including the Albany-Schenectady-Troy Metropolitan Statistical Area (MSA), with the New York counties of Albany (the county in which the Airport is located), Saratoga, Schenectady, Schoharie, and Rensselaer; the Glens Falls MSA, with the New York counties of Warren and Washington; the additional New York counties of Columbia, Fulton, Greene, Montgomery; Berkshire County, Massachusetts; and Bennington County, Vermont. The Airport is the sole provider of

PROFILE, continued

commercial service in the air trade area.

The Primary Air Trade Area Population has remained relatively the same in the past five years as follows:

	Primary Air Trade Area Population
2017	1,387,354
2018	1,381,063
2019, Census	1,405,031
2021, Thru June 2021	1,404,730
2022, Thru June 2022	1,409,427

The area includes over 31 employers with more than 1,000 employees, the largest employer being the State of New York with approximately 52,000 employees. The area includes 33 colleges and universities, 16 general-care hospitals, and offers a rich variety of cultural, recreational, educational resources, and activities.

FINANCIAL POLICIES

Financial policies, provided later in this section, set forth the basic framework for the overall fiscal management of the Authority. Operating independently of changing economic circumstances and conditions, these policies help the decision-making process of the Authority Board and administration. These policies provide guidelines and guidance for evaluating both current activities and proposals for future activities and programs.

Most of the policies represent long-standing principles (i.e. traditions and practices) that have guided the Authority for most of its existence. These traditions and practices have been further defined and refined over the past twenty-five plus years and have helped maintain the fiscal and financial stability in both the community and its government.

A guiding principle and policy is that of a balanced budget whereby current revenues equal or exceed current expenses.

Fiscal policies were designed to formalize and memorialize many of the traditions and practices that have long been followed; more clearly define the fiscal discipline of the Authority; and set standards to be maintained in the future. Within this context, it also compiles, assembles, and references the various policies that the Authority Board had previously formally adopted that bear clear fiscal and financial ramifications.

It has been identified that there are certain things that an Authority needs to do to protect itself and succeed, including:

- Maintain strong fiscal management
- Build cash reserves
- Maximize strengths
 - Good location
 - Transportation advantages
 - Strong fiscal management
- Minimize uncertainty
- Establish policy predictability
- Invest in the infrastructure that the Authority needs to succeed

The Authority Board has long incorporated these activities and practices in its planning and budgetary processes. This practice has arguably been beneficial for the financial well-being of the community and the Authority itself.

BUDGET PROCESS

The Public Authorities Reporting Information System (PARIS) is an online reporting system that allows the Authority to enter its budget information and submit reports to both the Authorities Budget Office and the Office of the State Comptroller, as required by law. Budget Reports are due sixty days prior to the start of the fiscal year.

BUDGET PROCESS, continued

New York Public Authorities Law requires the Authority make certain information is available online on its website. Posted website information must include:

- Mission Statement; and,
- Current Activities; and,
- Annual Financial Reports; and,
- Current Budget; and,
- Audit Report.

Budget Adoption The budget is adopted by resolution of the Authority Board.

Budget Calendar The 2024 budget process is provided later in this section.

The Budget was discussed with the Board on three occasions:

1. In September a Draft #1 budget is provided to the Board.
2. On October 5th Draft #2 was presented and discussed with the Finance Committee.
3. On November 6th the budget was formally adopted.

After the final approval, the budget is filed with

- Public Authority Reporting Information System
- The ALB website
- Submitted to the GFOA Distinguished Budget Presentation Program.

Budget Amendment The Budget may be amended during the year. In the event the Authority recognizes such an occurrence, the budget is amended by resolution approved by the Board .

Budget Monitoring The independent monitoring of the budget continues throughout the fiscal year for management control purposes. Monthly financial statements comparing budget to actuals are presented to all senior staff and Board members for review.

REVENUES

Total revenues, both airport and FBO, are shown as follows:

	Actual	Budget	Variance
2020	\$41,733,874	\$53,762,544	(\$12,028,670)
2021	45,459,292	45,833,662	(374,370)
2022	54,864,310	50,481,110	4,383,200
2023 ⁽¹⁾	57,323,984	58,287,414	(963,430)
2024 ⁽¹⁾	na	63,781,565	

⁽¹⁾ projected/budgeted

Budgeted 2024 Airport Revenue (not including FBO) increased \$5,494,151 from Budget 2023, largely as a result of increased airline airfield and terminal revenue and enplanement driven ground transportation and concession revenue.

More so than in prior years, the financial activities of the Airport have been segregated from those activities of the Fixed Based Operator. This segregation allows the reader to better understand the financial activities of each, on an individual basis.

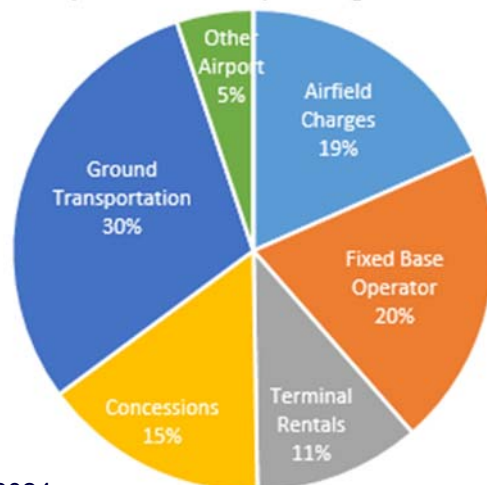

Segregated Airport and FBO actual revenues (not including CAREs Act Funding are shown as follows:

	Airport	FBO	Total
2020 ⁽¹⁾	\$24,511,916	\$ 6,307,407	\$30,819,323
2021 ⁽¹⁾	31,449,396	9,326,060	40,775,456
2022 ⁽¹⁾	41,076,149	12,506,121	53,582,270
2023 ^{(1) (2)}	39,113,160	13,119,067	52,232,227
2024 ⁽²⁾	50,892,135	12,889,430	63,781,565

⁽¹⁾ Does not include CAREs Act funding.

⁽²⁾ Projected/Budgeted

Airport and FBO Operating Revenue

REVENUES, continued

Budgeted 2024 FBO Revenue increased \$1,472,552 from the prior year’s budget as a result anticipated increases in general aviation activity and the cost of fuel sold, the largest contributor of FBO revenue, that is passed on to the customer.

Similar to other airports, the Authority has the largest portion of its expenses (26% + 14% = 40.0%) attributable to personnel salaries, wages, payroll taxes and fringe benefits as shown below:

EXPENDITURES

Operating expenditures, those expenses related to the day-to-day operations at the Airport and FBO include personnel, contractual services, and commodities. As mentioned in the Budget Overview, these expenditures are predominantly fixed and do not change all that much from year-to-year as shown below:

Like revenues, Airport and FBO actual expenses are segregated and shown as follows:

	Actual	Budget	Variance
2019			
2020	\$33,441,068	\$38,790,993	(\$5,349,925)
2021	33,766,602	37,534,328	(3,767,726)
2022 ¹	40,350,757	40,762,202	(411,445)
2023 ¹	41,965,133	45,887,593	(3,922,460)
2024	na	50,574,253	na

	Airport	FBO	Total
2020	\$27,686,238	\$ 5,754,830	\$33,441,068
2021	26,281,612	7,484,990	33,766,602
2022	30,543,367	9,807,390	40,350,757
2023 ¹	31,867,583	10,097,550	41,965,133
2024 ¹	40,097,302	10,476,951	50,574,253

¹ Projection/Budget

¹ Projection/Budget

The \$4,686,660 increase in the 2024 budgeted airport operating expenses is primarily due to increases in salaries and wages (\$1,227,074), health insurance (\$852,661), electric utilities (\$761,700), security services (\$557,763), other professional services (\$400,000), and credit card service charges (\$299,000).

PERSONNEL

Two positions will be added in the 2023 Budget and all full time positions have been budgeted as follows:

	Budget 2021	Budget 2022	Budget 2023	Budget 2024

CAPITAL IMPROVEMENT PROGRAM

The Capital Improvement Program (CIP) identifies all capital expenditures and their respective legal and regulatory funding sources within a five year time-frame. Capital expenditures are in excess of at least \$50,000 depending upon the asset category and have a useful life of greater than one year. The expenditures include replacement of rolling stock, building and infrastructure repairs, and contributions for grant-funded projects.

Prudent financial and budget management mandates the segregation and isolation of not only operating from capital funds, but the related cash inflow and cash outflow as well. It is imperative that segregation occur between operating from capital funds and also important that certain capital funds be segregated as well for statutory or other legal requirements.

DEBT SERVICE

Debt service has remained relatively stable over the last five years. The payments not including Passenger

Facility Charges (PFC's) applied for the last five years is shown below.

	Debt Service
2020	\$11,066,097
2021	11,819,269
2022	10,020,200
2023	10,022,650
2024	9,933,400

In July 2023, Moody's Investors Service upgraded outstanding debt from A3 Stable to A2 Stable citing "... effective management of financial profile, robust financial metrics, as evidenced by a Moody's calculated total debt service coverage ratio of 2.2x, and continue decline in debt levels relative to historical."

In August 2022, S&P Global Ratings upgraded outstanding debt from A- to A citing "the rating action reflects our expectation that ALB's strong rebound in enplanement levels to near pre-pandemic levels will be sustained, supporting a return to business-as-usual rate-making with an improved market position assessment and a return of its enterprise risk profile assessment back to the pre-pandemic level of strength. We expect ALB will maintain financial metrics (S&P Global Ratings-calculated) consistent with an unchanged strong financial risk profile."

Current bond ratings area as follows:

Moody's	A2	Stable
S&P Global Ratings	A	Stable

Before issuing new debt, the Authority carefully reviews its own financial position, and its ability to repay new debt issues with the least impact on the airlines. New issues are often structured in recognition of our existing debt obligations and when those obligations are retired.

The debt service schedule for the next five years is as follows:

Year Ending December 31	Principal	Interest	Total
2022	6,685,000	3,335,200	10,020,000
2023	7,020,000	3,002,650	10,022,650
2024	7,280,000	2,653,400	9,933,400
2025	7,625,000	2,291,250	9,916,250
2026	8,030,000	1,910,000	9,940,000
2027	1,455,000	1,508,500	2,963,500
2028	1,530,000	1,437,500	2,967,500

USE OF ESTIMATES

Both budgeted revenues and expenditures are estimated based on historical trends and, when applicable, underlying assumptions. Underlying assumptions may include enplanements, aircraft landed weights and aircraft operations.

BASIS OF BUDGETING

As a Proprietary Fund, the Authority uses a flow of economic resources, which is similar to the accrual basis of accounting with the below noted exceptions:

- Revenues are budgeted in the period they are earned and measurable:
- Expenses are budgeted in the period in which the liability was incurred:
- Depreciation of assets is not budgeted
- Principal payments are budgeted as an expense rather than a reduction to the liability.

GAAP FINANCIAL STATEMENTS

The Authority has adopted December 31 as its fiscal year end and issued its first financial statements in 1994. An audited comprehensive annual financial report has been issued each year thereafter. The Authority's financial statements are prepared on an accrual basis of accounting in accordance with generally accepted accounting principles (GAAP) promulgated by the Governmental Accounting Standards Board (GASB). The 2022 financial statements are available at www.albanyairport.com.

The Authority operates as a single enterprise fund. Enterprise funds distinguish operating revenues and expenses from non-operating items in accordance with the flow of economic resources measurement focus and the accrual basis of accounting. All assets, liabilities, net position, revenues, and expenses are accounted for through a single enterprise fund with revenues recorded when earned and expenses are recorded at the time liabilities are incurred. Capital assets are capitalized (except land) and depreciated over their useful lives. Funds are restricted for debt service and, where applicable, for construction projects.

DISTINGUISHED BUDGET PRESENTATION AWARD

For the Budget Year Beginning, January 1, 2023, the Government Finance Officers Association of the United States and Canada (GFOA) has presented the twenty first Distinguished Budget Presentation Award to the Albany County Airport Authority.

In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device.

The award is valid for a period of only one year. We believe this current budget continues to conform to program requirements, and its submission to GFOA will determine eligibility for a subsequent award.

ACKNOWLEDGEMENT

I would like to express my appreciation for the contributions of Ms. Margaret Herrmann for her efforts in the preparation of this document in a coherent manner for all to read and digest.

The publication of this budget would not occur without the efficient and dedicated services of all the members of the Authority's Finance Department, plus those from AvPORTS and Million Air, who contributed to the process.

I would also like to thank Mr. Philip Calderone, Authority CEO, and the members of the Board for their support in planning and conducting the financial operations of the Authority in a responsible and progressive manner. Without their leadership and ongoing support, preparation of this report could not be have been accomplished.

Respectfully submitted,

Michael F. Zonsius, AAE, CPA
Chief Financial Officer

Executive Director

ORGANIZATION CHART

Number in parenthesis represents department number.

ORGANIZATION

The Albany County Airport Authority is a body corporate and politic constituting a public benefit corporation established and existing pursuant to the Albany County Airport Authority Act, Title 32 of Article 8 of the New York Public Authorities Law. The State of New York (State) created the Authority in 1993 in order to promote the strengthening and improvement of the Airport, to facilitate the financing and construction of the Terminal Improvement Project (TIP) and as well the subsequent capital improvement programs, and give the Authority the power to operate, maintain and improve the Airport.

The Authority is governed by seven board members, four members appointed by the majority leader of the County of Albany (County) Legislature and three members by the County Executive, all with approval of the County Legislature. The Authority board members are appointed for a term of four years or until a successor is appointed, except that any person appointed to fill a vacancy will be appointed to serve only the unexpired term.

Chief Executive Officer

STRATEGIC PLAN

The Public Authorities Reform Act of 2009 introduced a requirement that Public Authorities adopt a mission statement and performance measurements. During 2010, the Albany County Airport Authority adopted a new Mission Statement and related Performance Measurements. The Albany County Airport Authority adopted Mission Statement Performance Measurements that at the time, were consistent with the recommendations found in the Transportation Research Board ACRP Report 19—Development and Airport Performance Measurement System issued in 2010 and sponsored by the Federal Aviation Administration. Since then, having had time to, digest and interpret the performance measures, the Authority has pared down the number of these measures to those that are priorities and readily and objectively identifiable.

The Authority continues to develop and refine its plans and programs with regard to its infrastructure, terminal and hangar buildings, equipment and staffing to maintain acceptable levels of service to its customers. The Authority has developed programmed schedules for vehicle and equipment replacements. Similarly, it has developed the Pavement Management Program in order to maintain runways, taxiways and aprons to an acceptable service level. Similar programs have been and are being developed for other components of the Authority’s infrastructure.

The Authority’s Strategic Plan is used as a source for the department’s annual goals and is provided later in this section. The purpose of this plan is to identify and prioritize the issues facing the Albany International Airport and address those issues within the context of creating the annual budget. Provided that the Authority’s vision, mission, goal, objectives, and values remain cogent for the Authority, the next step is to devise strategies to accomplish those goals and objectives.

At the department level, performance measures were developed to assess whether the Authority was successful in meeting its goals and objectives. As shown in the Supplemental Information Section of this budget report, are those performance measures.

As a matter of practice and for public review, the Authority prepares the performance measurements each year and incorporates them into both the annual financial report and the annual budget.

VISION

The Authority's vision statement is a measurable statement describing the future results the Authority seeks to achieve. The Authority's vision for Albany International Airport is to provide an exemplary airport in which to visit, travel, and work.

MISSION

The Authority's mission statement is a broad statement of what the Authority has been charged to accomplish and why. The Authority's mission is to provide adequate, safe, secure and efficient aviation and transportation facilities at a reasonable cost to the people. To accomplish our mission we will:

- Provide world-class, customer-oriented transportation services at Albany International Airport;
- Promote airline, cargo, business, and general aviation services at Albany International Airport by providing quality airport facilities;
- Operate the airport and provide services in the most cost-effective manner;
- Foster inter-modal transportation;
- Implement the airport's Capital Improvement Plan; and,
- Maintain financial security.

GOAL

The Authority's goal for the airport is derived from its mission and vision for the airport and describes the enduring end state desired for the airport. The Authority's goal for Albany International Airport is:

- To be widely recognized as the best airport of its size in the Northeast as well as an innovative model for a facility with vitality, enthusiasm, friendliness, competence, and efficiency.

OBJECTIVES

The Authority's objectives describe the outcomes required to accomplish the goal. The Authority's objectives in operating the airport are:

- To promote safe, secure, efficient and economic air transportation by preserving and enhancing Airport capacity.
- To acquire, construct, reconstruct, continue, develop, equip, expand, improve, maintain, finance, and operate aviation and other related facilities and services.
- To stimulate and promote economic development, trade and tourism.
- To form an integral part of a safe and effective nationwide system of airports to meet the present and future needs of civil aeronautics and national defense, and to assure inclusion of the Authority's facilities in state, national, and international programs for air transportation and for airway capital improvements.
- To ensure that aviation facilities shall provide for the protection and enhancement of the natural resources and the quality of the environment of the state and the capital district area.

VALUES

The Authority's values describe how the Authority will conduct itself, both internally and externally, when engaging in business activities. The Authority's values are:

- Responsiveness – being proactive; having a bias for action and sense of urgency in getting things done; anticipating the needs of tenants and passengers by taking fast action to surpass their expectations; encouraging tenant and passenger input.
- Integrity – possessing a commitment to doing the right things right, with consistent adherence to the highest professional standards; keeping commitments to our tenants, passengers, employees, and others.
- Innovation – dedicating ourselves to learning and growing; constantly searching for better ways to get the job done; using our collective imagination effectively to solve problems for our tenants, passengers and employees; going beyond perceived boundaries to get desired results.
- Teamwork – recognizing that every board member, employee, volunteer, tenant and others are important to the complete satisfaction of Albany International Airport; feeling personally responsible for successful outcomes; treating everyone with respect; communicating regularly, directly and honestly with our board members, employees, volunteers, tenants and others.

Strategic Plan

Strategy	Goal	Key Initiatives	Result
22-01 Ensure Long Term Financial Security	Provide the Albany International Airport (“ALB”) with the financial resources to meet operational needs and meet all debt service obligations.	Maintain appropriate financial reserves.	<ul style="list-style-type: none"> → Maintain at least a 125% debt service coverage of net revenues. → Maintain its A2 / A- Bond Rating from Moody’s and S&P Global Ratings , respectively. → Maintain a minimum two-month operating reserve.
		Enforce cost saving measures— improve purchasing processes, assess and identify savings at service levels and cost/benefit analysis.	<ul style="list-style-type: none"> → Implement cost saving plans. → Identify Savings.
		Increase non-aeronautical revenue.	<ul style="list-style-type: none"> → Identify new revenue streams. → Generate new busines at ALB.
22-02 Promote Customer Service	Ensure ALB provides world-class customer service.	Promote Albany International Airport to international and domestic airlines to increase air service.	<ul style="list-style-type: none"> → Increase non-stop destinations. → Increase flight frequency.
		Evaluate customer service needs based on changing demographics of traveling public.	<ul style="list-style-type: none"> → Increase concession revenues. → Increase passenger activity.
		Review roles and responsibilities for customer service between airlines and other Airport businesses.	<ul style="list-style-type: none"> → Identify service responsibilities. → Increase customer service.
20-03 Strengthen Relationships	Strengthen Albany International Airport’s effectiveness through interdepartmental relationships and alliances with regional businesses, public agencies, governmental units and airlines.	Encourage internal teamwork.	<ul style="list-style-type: none"> → Improve effectiveness through cross department communications, coordination and sharing.
		Strengthen partnerships with Federal and State agencies.	<ul style="list-style-type: none"> → Improve communications and integration of efforts with Federal and State agencies.
		Strengthen partnerships with the regional business communities.	<ul style="list-style-type: none"> → Improve coordination efforts between ALB and the regional business communities
		Build public support of Albany International Airport policies and initiatives through proactive communication and public relations outreach activities.	<ul style="list-style-type: none"> → Improve communications at ALB’s policies and programs. → Increase support of ALB’s positions and activities.

Strategic Plan

Strategy	Goal	Key Initiatives	Result
20-04 Utilize employee experience and knowledge to adjust to changing business needs	Ensure Albany International Airport acquires/retains employees with ability, experience and knowledge to fulfill its mission	Ensure employee wages and benefits are competitive.	→ Ensure Airport is competitive in the marketplace and able to attract and retain quality talent.
		Expand employee training programs.	→ Enhance employee knowledge and skill development in every department.
		Design and integrate leadership development process.	→ Leadership that supports organizational goals. → Preserve organizational knowledge.
		Build public support of Albany International Airport policies and initiatives through proactive communication and public relations outreach activities.	→ Improve communications at ALB's policies and programs. → Increase support of ALB's positions and activities.
20-05 Utilize new technology	Improve performance, increase productivity and deliver cost effective services.	Establish strategic investments in new equipment and technology based on current industry standards.	→ Upgrade equipment and electronic technology that improves productivity.
		Evolve server equipment to virtual server technology.	→ Lower energy maintenance, hardware and disaster recovery costs → Greater efficiency and productivity → Lower capital and operational technology costs.
		Distribute software updates, patches and new programs electronically.	→ Complete updates and installations. → Produce greater productivity and security.
		Evaluate common use system and support services at ALB.	→ Common use systems upgraded.

Performance Measurements

Area of Measurement	Performance Measure	Performance Measure Component	Final 2019	Final 2020	Final 2021	Final 2022	Budget 2024

* The increase in 2020 and 2022 is due to the large decrease in the enplanements (denominator) due to the COVID-19 pandemic

Note 1—An insufficient number of customer satisfaction survey were conducted to report on this performance measure.

FINANCIAL POLICIES

Guidelines

The budget process and format shall be performance based and focused on goals, objectives and performance indicators.

The budget will provide adequate funding for operation and maintenance of the Airport buildings and property, and replacement of capital equipment, construction, reconstruction and development at the Airport.

Balanced Budget

The budget should be balanced whereby current revenues equal to or greater than current expenditures.

Strategies to accomplish this balance include cost efficiencies, personnel efficiencies, increasing or implementing fees to match program expenses, fund balance usage (if available), and service reduction (if needed).

Budget Amendments

The adopted budget represents a business plan covering all Airport operations for the upcoming year.

If the plan needs to be significantly modified during the year the proposed revisions to the plan, together with their financial impact on either revenues or expenses, are presented to the Authority Board for review and approval.

No amendments have been enacted during the year 2023.

Budget Monitoring

The independent monitoring of the budget continues throughout the Fiscal Year for management control purposes.

Operating statements comparing actual financial results to budgets are reported monthly by the Chief Financial Officer and distributed to Board members, senior management and all key employees. Quarterly and annual financial reports are posted on the Authority’s website – www.albanyairport.com.

Performance Measurements

Performance measurements are developed based on program objectives that tie to the Airport’s vision, mission and values.

Performance measurements measure program results or accomplishments to provide good comparisons over time.

Performance measurements are monitored and used in decision-making processes.

Planning

The Authority will develop a five-year capital plan every five years commencing September 1, 1995. Each five-year plan must be approved by the Albany County Legislature.

The five-year plan will include estimated operating costs and revenues for future capital improvements.

Capital Improvement Policies

Capital projects that will be made during the current budget year should be detailed by project and type of work.

Progress projections for the five-year capital plan will be updated on a yearly basis.

The Authority will identify the estimated costs and potential funding sources for each capital project proposal.

The Authority will determine the least costly financing method for all new projects.

The Authority will maintain all its assets at a level adequate to protect the Airport’s capital interest and minimize future maintenance and replacement costs.

Debt Policy

The Authority will manage its current and future debt service requirement to be in compliance with all bond covenants.

The Authority will confine long-term borrowing to capital improvements or projects that cannot be financed from current revenues.

The Authority will maintain communications with bond rating agencies regarding its financial condition and will follow a policy of full disclosure.

The Authority, when applicable, will determine if the financial market place will afford the opportunity to refund an issue and lessen its debt service costs.

The Authority shall attempt to limit total debt outstanding to no more than \$100 per enplanement.

The Authority will not go over its legal debt limit of \$285 million.

FINANCIAL POLICIES, continued

The Authority will comply with its Derivative Policy which limits the use of derivative financial products to capital financing.

The Authority will comply with its Variable Rate Debt Policy which limits the use of net permanent variable rate debt to twenty percent of total debt outstanding.

Revenue Policy

The Authority will estimate and project its annual revenues by an objective and analytical process, as practical, on a yearly basis.

The Authority will maintain a diversified and stable revenue system to shelter it from unforeseeable short-run fluctuations in any one-revenue source.

The Authority will maintain sufficient revenues to pay all expenditures incurred for the operations and maintenance at the Airport.

Rates and Charges

The Authority and the airlines have negotiated a Use and Lease Agreement that became effective on January 1, 2016 to establish how the airlines that signed the agreement will be assessed annual rates and charges for their use of the Airport. Rates and charges are established annually. The calculation thereof is set forth later in this document. The agreement is effective through December 31, 2025 with an option to renew for two one-year options and one two-year option.

Compliance with Master Bond Resolution

The Authority has established the following funds and accounts as required by the Master Resolution and has set the policy on fund balance as follows:

- Revenue Fund - holding revenues collected by the Authority and applying revenues as required by the Master Resolution. Our policy is to keep only necessary amounts for working capital.
- O&M Fund, holding anticipated O&M expenses. Extra unused funds are applied to the accounts below;
- O&M Reserve - holding reserve for O&M expenses, equaling two months of O&M expenses as required by the Master Resolution;
- Bond Fund - including only principal and interest to be paid in the next payment dates;
- Bond Reserve Fund - including only amounts required by the Master Resolution;

- Renewal and Replacement Fund - The Authority's policy is to keep a minimum balance of \$500,000 in this account:
- Airport Development Fund - holding retained earnings of the Authority. The Authority's policy is to use this fund to build additional liquidity or avoid capital borrowing.
- Capital Construction Fund - to hold funds for Capital Project expense.

In addition, the Authority has the following funds and accounts:

- PFC account - holding all Passenger Facility Charge revenues collected by the Authority, to be used for future rates and charges or pay-as-you-go projects. The Authority reviews airlines rates and charges annually to determine the fund balance;
- Concession Area Improvement funds - collected by the Authority for improvement to concession areas if needed at the Authority's discretion; and

Investment Policies

The investment of Authority funds is governed by provisions of its enabling legislation and by an Investment Policy last amended by the Authority July 23, 2018. Any State or Federally chartered commercial bank that can meet the Authority's requirements in its Cash Management and Investment Policy which specifies required ratings and capabilities is authorized for deposit of monies.

Monies not needed for immediate expenditure may be invested in

- (1) United States Treasury obligations
- (2) Obligations backed by the United States Government full faith and credit
- (3) Obligations of New York State
- (4) Obligations of any other state provided it has received the highest rating by one independent rating agency designated by the State Comptroller
- (5) Certificates of deposit fully collateralized from a bank or trust company in New York State
- (6) Repurchase agreements using United States Treasury obligations with maturities of seven years or less.

Investments are stated at cost or amortized cost if maturity at time of purchase is less than 1 year and fair value if greater than 1 year.

GOVERNMENTAL BUDGETARY FUND STRUCTURE

The Authority uses a Proprietary Fund structure, defined below, to record the financial activities. This method is used because the Authority is a self-supporting entity whereby the payment of all Authority expenditures is supported by all Authority revenues.

Generally, however, governments use fund accounting to record their financial activities. Fund accounting means activities are separated so as to have its own set of financial records, this segregation is often caused by legal, statutory or practical purposes. This structure provides three broad categories of governmental fund types; governmental, proprietary, and fiduciary that may be further broken down as shown below.

Governmental Funds are those through which most governmental functions are financed and provided. Governmental fund types are broken down into three categories explained in further detail below.

- General Fund, is the primary operating fund of a government. It is used to account for all financial resources and activities except those required to be accounted for in another fund. This fund records the day-to-day financial activities that include, administration, police and fire protection, and public work activities.
- Special Revenue Funds are used to record revenue that has a restriction as to how the funds are to be used/ expended. Each special revenue fund provides a unique service or activity and is funded via taxes and/or user charges that are legally limited to being expended strictly on the purpose of that fund.
- Capital Projects Funds accounts for all fixed asset acquisitions and major capital projects not otherwise accounted for in other capital projects or enterprise funds.
- Debt Service Funds are used to accumulate funds for the payment of general long-term debt service. These funds are frequently stipulated by bond indentures.

Proprietary Funds are established to account for the financing and self-support operations and activities of governmental units which render services to the public on a user-fee basis. These operations are often similar to those found in the private sector operated for a profit.

- Enterprise Funds are used to account for private enterprise type activities whereby the intent, at a minimum, is to have the financial resources meet or exceed the activity's expenses. The Authority has one Enterprise Fund for the airport where the expenses are wholly supported by the fees charged for landings, property rent, fuel and other services provided.

Fiduciary Funds are used to record trustee type activities of the Authority, whereby the Authority holds the assets in trust.

- Pension Trust Funds are used to account for the accumulation of resources used to pay pension benefits.
- Agency Funds are used to account for assets held by the Authority as an agent for individuals, private organizations, other governments. The Authority has one agency fund.

GOVERNMENTAL BUDGETARY FUND STRUCTURE

To account for the financial activities of the Airport, the Authority categorizes all revenue and expenses into one of the following department/cost centers as shown below:

Department Number	Department Name	Revenue	Expense	Day-To-Day Responsibility			Rates & Charges			
				AvPORTS	Fixed Base Operator	Albany County Airport Authority	Allocation			Revenue Sharing

Long-Range Financial Plan

The importance of a Long-Range Financial Plan has become increasingly apparent during the recent COVID-19 pandemic. The Authority financially sustained itself as a result of long term financial planning that included the maintenance of operating reserves and prudent financial management.

Above all else, the safety of the airport’s passengers, employees and visitors is foremost. Thereafter, the Strategic Plan comes into play with the Long Term Financial Plan which includes; maintain at least 125% coverage of net revenues, maintain its A2/A bond rating, and, maintain a minimum two-month operating reserve. The Authority also has its obligations under Airport Improvement Program to maintain a financially self-supporting, as possible, entity.

The major assumption is an inflation rate of approximately 2.5% percent for both Operating Revenue and Operating Expenses.

As follows is the Authority’s three (3) year Long Term Financial Plan:

Airport

	Enplane.	Operating Revenues	Operating Expenses	Operating Profit	Non Operating Revenue and Expenses	Debt Service	Net Capital Contribution/Expenditure	Total
2022	1,289,254	\$42,358,189	(\$30,543,367)	\$11,814,822	\$5,389,998	(\$10,020,200)	(\$3,518,570)	\$3,666,050
2023	1,340,000	44,204,917	(31,867,583)	12,337,334	6,290,692	(10,022,650)	(972,127)	7,633,249
2024	1,425,000	50,892,135	(40,097,302)	10,794,833	5,950,600	(9,933,400)	(4,119,728)	2,692,305

10 AIRFIELD
Overview

This cost center includes the salaries and benefits for the airfield maintenance workers and the direct costs associated with the maintenance and repairs of all areas inside the Air Operations Area (AOA), which includes the runways, taxiways and ramp areas. This cost center also includes the expenses for the glycol containment system and all maintenance and repairs for airside buildings including the airfield/vehicle maintenance facility.

Manager: Ray Camilli - AvPORTS LLC

Rates & Charges Allocation: Direct; cost bore by Signatory Airlines.

Goals / Objectives / Performance Measures:

1. Runway incidents, 0
2. SPEDES Permit Sactions, 0

21 LOADING BRIDGES
Overview

21

This department includes the maintenance expenses and related debt service payments associated with fourteen loading bridges. Revenues are collected in amounts sufficient to offset any expenses the Authority incurs.

Manager: Kevin Hehir, AvPORTS, LLC

Rates & Charges Allocation: Direct; costs bore by Signatory Airlines.

Goals / Objectives / Performance Measures:

1. Response to Passenger Load Bridge outages, 1 hour

Section 6 Debt Service

2021E does not include defeasance of \$580,000 Series 2007A Bonds.

DEBT POLICY

The actual amount of debt the Authority may have outstanding at any one time is limited by the following:

- The Authority's legal debt limit (\$285 million). The Authority's debt limit was increased from \$175 million to \$285 million during 2004 by State legislation enacted (Chapter 500), amending the Albany County Airport Authority Act, Title 32 of Article 8, of the New York State Public Authorities Law. The Authority has historically only issued debt to fund major capital improvement projects in excess of \$50,000.
- The Authority's Master Bond Resolution which permits new borrowings only if the Authority's net revenues equal 125% of Maximum Annual Debt Service on all debt outstanding and the proposed debt to be issued. This debt coverage calculation can be found in the Rates and Charges section of this document.
- The maintenance of investment grade debt ratings from major debt rating agencies. These agencies generally suggest that the total debt outstanding should be limited to \$100 per enplaned passenger.
- The willingness of investors in the bond market to purchase the Authority's indebtedness.
- Any negotiated bond sales are subject to the approval of the Comptroller of the State of New York and the Comptroller of the County of Albany.

The Authority also adopted a Derivatives Policy and a Variable Rate Debt Policy as summarized below.

Derivatives Policy

The Authority adopted a Derivatives Policy which allows for the use of Derivative Financial products for capital financing. The Derivatives Policy prohibits the use of Derivative Financial products for either investment or speculation. The Derivatives Policy recognizes derivatives as non-traditional financial products, including but not limited to, floating to fixed rate swaps, swaptions, caps, floors, collars and municipal warrants. The Derivatives Policy requires:

- that transactions entered into under the policy must be for a market transaction for which competing good faith quotations may be obtained at the discretion of the Authority and with the advice and recommendation of the Authority's swap advisor, and other financial professionals;
- that transactions should produce material economic benefit believed to not otherwise be attainable under the current existing market conditions, or existing conventional debt structures, and improve the flexibility of debt management strategies;
- employ a structure that will attempt to minimize any additional floating rate basis risk, tax law risk or credit risk to the Authority and justify the acceptance of these risks for a particular transaction, based on the additional benefits to the Authority; and
- limits the total amount of derivative financial product transactions so as not to exceed thirty-three percent (33%) of the total authorized debt limit of the Authority (currently \$285 million).

Variable Rate Debt Policy

The Authority adopted a Variable Rate Debt Policy which allows for the use of variable rate debt within prescribed limitations. The Variable Rate Debt Policy recognizes permanent and interim uses of variable rate debt. Interim use of variable rate debt may occur during the construction phase of a project for which the Authority intends to obtain permanent financing at the conclusion of the construction phase. The Variable Rate Debt Policy provides that:

- permanent variable rate debt exposure includes variable rate debt which the Authority does not intend to be refinanced by a long-term fixed rate debt;
- net permanent variable rate debt exposure is permanent variable rate debt that is not offset by the cash, cash equivalent and short-term investment assets of the Authority;

DEBT POLICY, continued

- net permanent variable rate debt excludes, with some exceptions, variable debt that has been synthetically changed to fixed rate debt by the use of a financial derivative hedge product with a fixed-payer interest rate swap;
- net permanent variable rate debt, excluding synthetic fixed rate transactions, should not generally exceed twenty percent (20%) of the Authority's outstanding indebtedness.

The Authority's policy is to manage its current and future debt service requirements to be in compliance with all bond covenants, while prudently meeting the capital needs of the Airport and to continue the pursuit of higher underlying ratings from the rating agencies.

MASTER and SUPPLEMENTAL BOND RESOLUTION

The Authority in 1995, as amended in 1997, established procedures for selection of underwriters for the sale of the Authority's bonds and for certain other matters. These procedures allow for public competitive sale, public negotiated sale or private negotiated sale of debt based upon a determination of the Chief Financial Officer and the recommendation of the Authority Chair.

In 1997 the Authority adopted a Master Bond Resolution which authorizes the issuance of Airport Revenue Bonds; prescribing the limitations on and the conditions of issuance and the form of any bonds to be issued. Two key provisions provide for an additional bonds test before the Authority issues any new debt and a covenant to maintain 125% debt service coverage of net revenues, as defined.

Since 1997, there have been sixteen supplemental resolutions.

DEBT OUTSTANDING

In August 2021, \$580,000 of Series 2017A (non-AMT) bonds were defeased. This transaction was completed to pay back bond funds that were used to refurbish the old Airport Administration offices that are now being occupied by a private entity.

The chart below exhibits for each issue the original issue amounts, the debt to be outstanding as of December 31, 2023, the principal payments due in 2024, the interest due in 2024, total debt service payments, and the debt outstanding as of December 31, 2024.

Bond Series	Original Issue Amount	Outstanding 12-31-23	Principal Payments Due in 2024	Interest Payments Due in 2024	Total Payments Due in 2024	Outstanding 12-31-24

30 Series 2018A Revenue Bonds(Non-AMT)

Bond Series: Series 2018A Revenue Bond (Non-AMT)

Date: November 15, 2018

Payable: Principal is payable annually on December 15 with interest paid semiannually each June 15 and December 15.

Rating: Moody's: A2
(underlying) Sandard & Poor's: A

Purpose: The Series 2018A Bonds were issued to (i) finance \$15million of project costs in the Authority's 2015-2019 Five-Year Capital Plan (the "Capital Plan"), (ii) make the require deposit to the Bond Reserve Account for the Series 2018A Bonds, and (iii) to pay the costs of issuing the Series 2018A Bonds.

The Capital Plan approved by the County of Albany, as amended in 2017, includes the issuance of up to \$38.5 million in bonds to fund projects included in the plan. On August 14, 2018 the State of New York announced a \$92 million Albany International Airport Modernization Project (the "Project"). The Project includes an Airport Highway Access Project funded by the State at an estimated cost of \$50 million and a \$42.2 million Airport Modernization Project to which the State is contributing \$22.1 million in grant funding. The Authority intends to use \$14.1 million of the Series 2018A Bond Proceeds and other available funds to fund a portion of the Airport Modernization Project.

The Allbany International Airport Modernization Project includes:

1. Construction of a 1,000 unit, multi-level parking garage.
2. Energy-effiecient LED lights illuminating a bridge connecting the garage to the terminal.
3. Parking access improvements including lighting to highlight available parking spaces.
4. Terminal Projects that will include refurbishing the escalators, restrooms, waiting rooms and food courts.
5. The Authority will use \$900,000 of the Series 2018A Boind proceeds to fund other capital expenditures included in the Capital Plan.

Security: The bonds are secured by the full faith and credit of the Authority and are payable from general Airport revenues without limitation

Section 7 Capital Improvement Program

Capital Contributions

and

Capital Expenditures

FIVE-YEAR CAPITAL PROGRAMS

The enabling legislation creating the Authority (Chapter 686 of the Laws of 1993) sets forth in section 2784.3. (a) The following:

“On or before September first, nineteen hundred ninety-five, and on or before September first on every fifth year thereafter, the Authority shall submit to the county legislature a capital projects plan for the five year period commencing January first of the following year. The plan shall set goals and objectives for capital spending and describe each capital project proposed to be initiated in each of the years covered by the plan. Each plan shall also set forth an estimate of the amount of capital funding required each year and the expected sources of such funding.”

The first-five year capital program covering the years 1996 through 2000 totaling \$49,571,843 was approved by the Albany County Legislature, in Resolution 280, adopted on September 11, 1995. There was one amendment to the five year capital plan for \$6,605,319 approved in Resolution 251, adopted on July 13, 1998 which increased the total approved capital program to \$56,177,162.

The five-year capital plan for years 2000 through 2004 totaling \$232,400,000 was approved by the Authority on February 7, 2000 and the Albany County Legislature in Resolution No. 39-00, adopted on February 14, 2000. There was one amendment to the five year capital plan for \$26,000,000, approved in Resolution No. 180, adopted on April 14, 2003, increasing the total amount to \$258,400,000.

The five-year capital plan for the years 2005 through 2009 totaling \$264,900,000 was approved by the Authority May 3, 2004 and the Albany County Legislature in Resolution No. 400, adopted August 9, 2004.

The five-year capital plan for the years 2010 through 2014 totaling \$139,300,000 was approved by the Authority September 14, 2009 and the Albany County Legislature in Resolution No. 477, adopted December 7, 2009.

The five-year capital plan for years 2015 through 2019, totaling \$120,520,000, was approved by the Authority on September 22 2014 and by the Albany County Legislature in Resolution No. 411, adopted on November 10, 2010. An amendment to the five-year capital plan for \$22,000,000, approved in Resolution No. 167, adopted on May 7, 2017, increased the total amount to \$142,520,000. A second amendment to the 2015-2019 five-year capital plan was approved to this 2020 through 2024 five-year capital plan that decreases the plan by \$5.66 million to \$136.86 and reflects increased spending on projects that received more than previously anticipated levels of federal and state grant funding.

The five-year capital plan presented for the years 2020 through 2024 provides for potential projects totaling \$180,000,000. The projects included represent the Authority's estimate of the numerous potential airport developments which could occur during the next five years. The estimates are based upon the best case scenario for variable economic and aviation industry conditions during the five-year plan period. A description of each project is included herein. Some of these projects are contingent upon the future realization of currently potential increases in airport passenger traffic and/or airport tenant activities. Therefore, the actual initiation and projected timing for each project could be altered and the project may not actually be initiated during the five-year plan. Factors that could cause increases in activities at the Airport include introduction of one or more new commercial carriers, leasing property to new aeronautical tenants, and improvements in the regional and national economies.

The potential funding sources represent the Authority's current estimate of those projects which are eligible for federal funding and the related New York State share thereof. As of this date, the total amount of Federal entitlement or discretionary funding will be made available to the Authority during this five-year period is not known. The remaining projects, if they are initiated, will be funded by Authority resources, either from airport capital funds or from the issuance of Authority debt.

Many of the projects are dependent on future growth in passengers, cargo and general aviation usage of the Airport and the related support facilities and equipment needed to meet that growth. Also, many of these projects are dependent on their eligibility for available Federal and State funding, or on the ability of the Authority to issue indebtedness. The actual time for starting each project is dependent upon this growth and availability of funding.

FIVE-YEAR CAPITAL PROGRAMS, continued

The total effect any Capital Program will have on future operating budgets is evaluated at the time a specific project is authorized by the Authority to be started, unless a project is mandated for safety or health purposes. All other projects are undertaken based on a cost-benefit analysis.

CAPITAL DEVELOPMENT

The Airline Use and Lease Agreement, in place January 1, 2016, provides for annual capital expenditure.

The 2016 agreement provides initially for \$3,000,000 annually adjusted by the same percentage as the annual increase, or decrease, in non-airline revenues. Any amount not currently utilized is carried forward by the Authority for use in subsequent years. In the current Airline Use and Lease Agreement, the amount funded during 2016 was fixed at \$3.0 million, in subsequent years the amount will be increased by the percentage growth in non-airline revenues over airline revenues. In Budget 2024, \$3,987,919 is used for project capital funding.

Status: New Project

CIP Number: AIP-24-10-01

CIP Description: Runway 01/19 Design and Construction

Category: 10 - Airfield

Environmental Required: Federal:
State:

Project Approved on ALP: NA

Airspace Status: Pending

Project Scope: This project generally includes the milling and overlaying of the 8,500 x 150-foot Runway 01-19 as well as the two associated blast pads at the Albany County Airport. Temporary pavement markings, permanent markings and saw-cut grooving will also be included. All runway threshold lights, edge lights, touchdown zone lights and centerline lights within the project limits will be retrofitted with new LED fixtures and appropriately sized transformers. Electrical cables, including homeruns to the vault will be replaced. Edge grading will be performed to remove built-up material located along the pavement edges. In general, the pavement will be milled to a nominal depth and replaced at the same depth. The project design does not include topographic survey and will not include surface grade modifications and smoothness adjustments.

CIP Number: AIP-24-10-02

CIP Description: Airport Sustainability Management Plan

Category: 10 - Airfield

Environmental Required: Federal:
State:

Project Approved on ALP: NA

Airspace Status: Pending

Project Scope: Airport Sustainability is a broad term that encompasses the breadth of management of airports. The term refers to specific efforts that elevates the protection of the environment, including conservation of natural resources; operational efficiencies; social progress that recognizes the needs of all stakeholders, and maintenance of high and stable levels of economic growth and employment. An airport with systemic support for preserving economic growth and long-term resiliency, while limiting natural resource impacts and upholding organizational and community values is a sustainable airport.

This Sustainability Management Plan (SMP) will provide a holistic approach to managing the Airport to ensure the integrity of the Economic viability, Operational efficiency, Natural Resource Conservation and Social responsibility (EONS) of the airport. The SMP will guide ALB in integrating airport sustainability as a core objective in future planning, operational, and business strategies. The plan will promote design, project implementation, and financial decisions that will help the Albany County Airport Authority identify ways to reduce natural resource consumption, vulnerability to the changing climate, and environmental impacts and carbon footprint.

The Focus Areas detailed in this scope of work were identified in conjunction with ALB leadership, and align directly with the goal of ALB to be Net Zero by 2040 with respect to greenhouse gas emissions and with the Environmental Policy Statement issued by the airport in December of 2021 and available on the Airport website. These two public declarations demonstrate the commitment of the Albany International Airport to environmental responsibility and limiting impacts from their operations, while maintaining quality services to their customers.

CIP Description: Runway 28 Runway Protection Zone (RPZ) Property Acquisition

Category: 10 - Airfield

Environmental Required: Federal:
State:

Project Approved on ALP: NA

Airspace Status: Pending

Project Scope: The subject is a ±3.60 acre vacant site, located along Wade Road town of Colonie, Albany County, New York, within the Albany County Airport Authority Runway Protection Zone.1 Per NYSDEC wetlands mapping, ±2.60 acres are encumbered by NYS and NWI {riverine and freshwater forested shrub} wetlands and the remaining ±1.00 acre is located in a wetlands check zone. Shakers Creek diagonally bisects the site.

CIP Number: AIP-24-10-04

CIP Description: South Side Perimeter Road

Category: 10 - Airfield

Environmental Required: Federal: Short EA
State:

Project Approved on ALP: NA

Airspace Status: Pending

Project Scope: The project consists of the construction of approximately 4,300 linear feet of 12-foot-wide service road at the Albany International Airport. The 4,300 linear feet will complete the service road's path along the interior of the airport's security fence allowing the entirety of the fence to be inspected from inside the airport's security fence. The road will be aligned to remain outside of the existing Runway 1-19 Runway Safety Area, Runway Object Free Area, and the Glide Slope Critical Area. In areas of potential wetlands where the road will pass through, and culverts will be located at low points of the existing grade to allow surface water to continue to pass.

CIP Description: TSA In-Line Baggage Screening

Category: 20 - Airfield

Environmental Required: Federal:
State:

Project Approved on ALP: NA

Airspace Status: Pending

Project Scope: Design a centralized in-line Checked Baggage Inspection System (CBIS), input conveyors from the ticket counter, baggage makeup area and associated facilities to house the system that will replace the individual mini-inline screening systems located within the current Airline baggage makeup spaces. The design anticipates a three-machine checked baggage inspection system using medium speed machines this are compliant with TSA Planning Guidelines and Design Standards (PGDS) version 8.

CIP Description: Acquisition - 2 Airfield Brooms
Category: 50 - Airside
Environmental Required: Federal: CATEX (issued 03/28/2022)
 State:
Project Approved on ALP: NA
Airspace Status: NA

Project Scope: This project includes acquisition of two (2) Airfield Brooms. This equipment will replace existing units M31 and M32 that are over 18 years old and will allow the Airport to maintain adequate equipment to clear Priority 1. The project preserves the safety at the airport. This project is eligible pursuant to 158.15(a)(1) and will preserve safety at the airport and for the national air transportation system.

CIP Description: Airfield Lighting Controls

Category: 20 - Airfield

Environmental Required: Federal:
State:

Project Approved on ALP: NA

Airspace Status: Pending

Project Scope: Remove the existing computer, cabinet, wiring and controls in the Airfield electric vault. Remove the computer (including the touch screen), cabinet and controls from the ATCT cab. All work must be done, while maintaining the functionality of the existing system until the new system is completely actuated and all training completed.

Furnish and install new upgradeable computers with battery back-up in both the Airfield electric vault and the ATCT tower cab, capable of communication by single mode fiber. New conduits and wiring will be required at both locations. Furnish and install new wiring and conduit to interface with the back-up generator, tower beacon and the constant current regulators. Furnish and install new current Airport mapped touch screen system in the ATCT Tower cab. New installation will also include a remote station to monitor the system and allow for remote megging.

CIP Number: PFC-24-10-02
CIP Description: Airport Stormwater & Resiliency Master Plan
Category: 20 - Airfield
Environmental Required: Federal:
State:
Project Approved on ALP: NA
Airspace Status: Pending

Project Scope: This project will ensure the essential planning and preparation for both the increased frequency of severe rain events in conjunction with proposed long-term infrastructure projects. The Airport Stormwater & Resiliency Master Plan will incorporate both water quality control measures for new development, as well as long-term stormwater infrastructure needs for the entire airport property.

As severe weather events increase in frequency, it is prudent to undertake this planning study to ensure the resiliency of the airport is adequate to meet the changing natural environment. In addition, with a robust long-term capital plan being scheduled, it is essential to understand the necessary infrastructure to prepare for development around the airport and how this integrates in the existing/future stormwater infrastructure.

CIP Number: 24-20-01

CIP Description: Amendment: Replace Terminal Escalators #22 and #23

Category: 20 - Terminal

Environmental Required: Federal: na, PFC funded
State: SEQR Type II

Project Approved on ALP: NA

Airspace Status: Na

Project Scope: This is an amendment to increase the cost from \$1,200,000 to \$1,510,000. This project includes the relocation of the escalators #22 and #23 from their existing position in the terminal lobby to the B concourse.

CIP Description: Building #301 & Building #302 Roof Repair

Category: 30 - Landside

Environmental Required: Federal: na
State: SEQR Type II

Project Approved on ALP: NA

Airspace Status: Pending

Project Scope: The existing roofs on Buildings #301 and #302 are beyond 25 years old and have required repairs for leaks and wind damage. The existing roof systems will be removed including the insulation. New insulation and a new rubber membrane roof will be installed on each building.

Project was previously budgeted in 2021.

AIRLINES RATES AND CHARGES SUMMARY

The Airline Use and Lease Agreement (ULA) that began on January 1, 2016 continues to recognize that the Airlines and the Authority are working together to provide adequate facilities at the Airport and to provide appropriate accommodations for the public using the Airport without creating an unreasonable financial burden on the airlines or the Authority. This goal is achieved through a “revenue sharing” relationship in which both the signatory airlines and the Authority “share” in the successful financial performance of the Airport. This ULA had a five year term with an expiration date of December 31, 2020, and included one five year option period. Due to the COVID-19 pandemic that began in March 2020, this five year renewal term was modified to a three one-year renewal terms (2021, 2022, 2023) followed by one two-year (2024-2025) option term.

The revenue sharing formula in the Airline Use and Lease Agreement includes the following key elements:

A residual landing fee rate for the airfield cost center using passenger airline and cargo carrier landed weight as a divisor. Certain revenue items are credited in the rate calculation to lower the overall requirement of the airfield. Included among those offsets are interest earnings, FBO commercial net revenues and all revenues from non-signatory airlines.

An aircraft apron fee rate is based upon ten percent of the total landing fee requirement; divided by number of total square foot of apron space.

A commercial compensatory terminal rental rate for the terminal cost center, using rentable square feet as the divisor. Space occupied by the airlines or other tenants is paid for directly by a terminal rental charge.

A loading bridge fee charge is implemented based on annual capital charges, capital charge coverage, any required reserves, and operating and maintenance expenses incurred.

A formula for revenue sharing at 50/50 with the signatory airlines based on remaining Airport funds in excess of the total requirements of all cost centers. The signatory airlines’ share is credited back to airlines in the subsequent year.

COST CENTERS AND ALLOCATIONS

The expense budget under the New Agreement includes seven direct cost centers (airfield, terminal, loading bridges, parking, landside, FBO commercial aviation, and FBO general aviation and facilities) and seven indirect costs centers (ARFF, operations, security, vehicle/equipment maintenance, AvPorts administration, Million Air administration, and Authority administration). The expenses for four of the indirect costs centers (which exclude administration) are allocated to the direct costs centers based on an analysis of the staff hours worked and the budgeted costs within each indirect cost center. After those indirect costs are allocated to the direct cost centers, administration is allocated based on the total actual direct and indirect costs for each direct cost center. The allocation percentages for 2024 are set forth in the operating expenses allocation summary the Budget Overview section. The allocation rates will be reviewed and potentially revised at the end of 2024 to reflect the actual operations and maintenance for all of the facilities.

NON-SIGNATORY RATES - Airlines that are not signatory to the Agreement are charged the lesser of the compensatory rate for the airfield or 1.25 times the signatory rate

PER USE TERMINAL FEE - Low-Volume Air Carriers that are not signatory will be charged a per use terminal fee. The Per Use Terminal Fee shall be calculated by dividing the sum of the estimated total annual aircraft apron Fees, terminal rentals and equipment charges, by the total number of enplaned passengers at the Airport in the preceding year, and multiplying that quotient by one hundred twenty-five percent (125%).

AIRLINES RATES AND CHARGES SUMMARY, continued

REVENUE SHARING - Over the three year term (2021-2023), with extensions, of the Airline Use and Lease Agreement, 50% of all Airport revenues in excess of the total requirements of all cost centers in each fiscal year is "transferred" as a credit.

COST PER ENPLANEMENT - One measure of the total revenues received by the Authority from the airlines is the Airport cost per enplanement (CPE). The CPE is presented with two components.

The Airport CPE represents the net cost incurred by the commercial airlines based on their regular operations at the Airport.

The FBO CPE represents the additional cost incurred by the airlines for into-plane, fuel farm, and deicing services; services usually provided by fixed based operators but at Albany International Airport are provided by the Authority.

RATES and CHARGES SUMMARY

CAPITAL DEVELOPMENTS BY THE AUTHORITY

On July 17, 1996, ground was broken for construction of a new air-cargo building in the northeast quadrant of the airport as the first step in consolidating the present and developing the future air-cargo capacity for the Airport. The \$11 million cargo facility and related airfield and landside improvements were financed by Airport Revenue Bonds. This facility opened in October 1998 and is under a long-term lease agreement with Aviation Facilities Company, Inc. (AFCO).

On October 3, 1996, ground was broken for the Terminal Improvement Project (TIP). The TIP consisted of a new terminal and other facilities to replace the 1959 terminal and was designed to accommodate future demands for approximately 1.5 million annual enplanements. The TIP was substantially complete on October 1, 1998.

In February 1997, the Authority issued \$96,305,000 of Airport Revenue Bonds to finance the TIP and certain capital improvement projects initiated by the County prior to the creation of the Authority.

In December 1997, the Dormitory Authority of the State of New York issued \$41,395,000 of State Service Contract Revenue Bonds for the purposes of financing, construction, reconstruction, improvements, reconditioning and preservation of the Airport or aviation capital projects at the Airport. The Revenue Bonds were secured by a service contract under which the State of New York agreed to pay the annual principal and interest payments. The Revenue Bonds are not debt of the Airport Authority nor is the Airport Authority liable thereon.

Proceeds totaling \$40 million were used by the Authority toward the cost of constructing the new terminal building, a connecting bridge and a parking garage at the Airport. The Authority allocated \$20 million each towards the cost of the terminal and the garage.

The Authority maintains a Federal Inspection Station to process regular scheduled international flights together with other general aviation and international cargo flights.

On June 7, 1998, airline operations began in the new terminal facility and demolition began on the 1959 structure.

In July 1998, the Authority, through the New York State Environmental Facilities Corporation (EFC) received \$7.5 million Series A bonds to finance the total construction of a new glycol wastewater treatment system. In July 1999, the loan was replaced by \$7,895,303 bonds issued by the EFC with interest on the first \$3 million 100% subsidized and the remaining \$4.5 million 50% subsidized by the New York State Water Pollution Control Revolving Fund.

On December 1, 1998, the Authority sold two Airport Revenue Bond issues totaling \$30,695,000 to finance two capital projects:

The 1998 B (non-AMT) issue totaling \$18,455,000 was sold to finance in part the construction of a new 1,600-space parking garage. The garage partially opened in December 1998 for use by short-term visitors to the Airport and the balance used for long-term parking was opened in February 1999.

The 1998 C (AMT) issue totaling \$12,240,000 was sold to finance the construction of the new 50,500 square foot air cargo building which was opened during October 1998 for use by Airborne Express, Federal Express and United Parcel Service.

In March 1999, operations began in the newly constructed air traffic control tower located in the northeast quadrant of the airport. Demolition also began on the old control tower to provide additional apron area for use by the airlines.

In April 2000, construction was completed for the addition of approximately 16,000 square feet of terminal space including ticketing, baggage make up and hold rooms to accommodate the arrival of Southwest Airlines which began service May 7, 2000. This addition was principally financed through the receipt of a \$6 million grant from the State of New York.

In May 2000, construction of 874 space remote surface parking lot was completed at the southeast quadrant of airport property to accommodate the additional parking required by the increase in enplanements as a result of the addition of Southwest Airlines.

In July 2000, the Authority, through the EFC, entered into a ten year \$2,374,936 Series B loan agreement

CAPITAL DEVELOPMENTS BY THE AUTHORITY, cont.

with the New York State Water Pollution Control Revolving Fund to finance the construction of a glycol filtration polishing facility. The interest thereon is fifty percent subsidized by the New York State Water Pollution Control Revolving Fund.

In November 2000, a parking garage expansion was opened to accommodate 307 parking spaces for the rental car operators and 400 additional spaces for public parking.

In December 2000, the Authority issued \$14,500,000 of Airport Revenue Bonds to finance the construction that began in 2001 of a New York State Police Executive Hangar to consolidate the State's current aircraft and maintenance support facilities, which were located in two widely separated hangars on the airfield. The new facility completed in 2002 consists of approximately 84,630 square feet of hangar, maintenance support, office space, and includes all the necessary mechanical, electrical, plumbing, fire, security, and energy management systems; crane and hoist equipment and other support equipment for aircraft maintenance; and office furnishings. Landscaping, parking lot, and security fence to secure the leased area also were provided. The Authority and the Division of New York State Police entered into a thirty (30) year Land and Facility Lease Agreement effective April 1, 2000. These Airport revenue payments are sufficient to amortize the debt service payments for this Bond issue plus any other related costs incurred by the Authority.

In 2001, the Authority began construction of a new ARFF facility and general aviation T-Hangars.

In 2001, the Authority also obtained final FAA and all other required approvals for the extension of Runway 10-28 from 6,000 to 7,200 feet. Construction began in 2002. This project also included extending taxiway "C" and related hold apron and service road improvements. The runway was completed and opened in August 2003.

In July 2001, the Authority acquired a 9½ acre Industrial Park with four warehouse type buildings totaling 27,500 square feet. In 2002, renovations were completed and the ground support facilities for American Airlines, US Airways, plus Lansing Flight Support were relocated from the old belly-freight building. In addition, KME Fire Apparatus leased one building to which

an addition was added to support their requirements.

In 2002, construction was completed on a 10-bay T-Hangar facility, a self-service fueling facility, and a neighboring tie-down area for use by the general aviation community. Construction began on a second T-Hangar building to provide 10 more T-Hangar units. This construction was completed in 2003. All units are leased.

An extension to the remote parking lot "E" began in 2002 which will nearly double the capacity to 2,000 plus public parking spaces. As a result of several adjoining land acquisitions, expansion work continued into 2004.

During 2003, the Airport received Federal support for the complete rehabilitation of the primary runway 1-19 including the complete replacement of centerline lighting. The work was completed in 2003. Also during 2003, the Airport received all necessary approvals to begin extension of the primary runway 1-19 from 7,200 to 8,500 feet. The work was completed in 2006.

During 2003, the Authority was granted \$2.3 million of State funds through the support of State Senator Joseph Bruno to acquire and install two over-the-wing loading bridges for Southwest Airlines. Albany International Airport was the first airport in the United States to have two such bridges in operation.

In June 2003, the Authority sold \$8,855,000 of Series 2003A Airport Revenue Bonds to pay the costs of various land, hangars and equipment acquisitions, apron and runway expansions, taxiway, runway and hangar rehabilitations, certain terminal expansions, and leasehold improvements.

In March 2004, the Authority, through the NYS EFC, issued \$388,316 of Airport Revenue Bonds to finance the construction of sanitary sewer and water improvements in the Airport Industrial Park.

Other major projects completed in 2004 included finalizing renovations to the terminal to accommodate TSA security personnel and to provide space for their passenger screening and baggage inspection operations. Construction started in 2004 on the main Runway 1-19 extension from 7,200 to 8,500 feet and was completed in 2006 together with related navigation aids and taxiways. Remote parking was expanded by

CAPITAL DEVELOPMENTS BY THE AUTHORITY, cont.

approximately 700 additional spaces to accommodate an ever-increasing demand for on-airport parking. Also a new US Postal facility was opened.

In 2005, the Authority acquired the on-airport assets of the former FBO (\$3.0 million). With this acquisition the Authority assumed responsibility for managing and operating the FBO. The Authority operates the FBO under the franchise trade name "Million Air". That same year the Authority also acquired an office building and two warehouses for lease and 400 additional remote surface parking spaces (\$2.4 million). Also in 2005, the Authority completed a \$2.8 million aircraft engine run-up attenuation facility to enhance the containment of noise from the Airport.

In June 2006, the Authority issued \$14,230,000 of bonds to provide funds for various land, hangar, equipment acquisitions, hangar rehabilitations, certain terminal renovations, utility improvements, and parking expansions.

In December 2006, the Authority issued \$6,330,000 of bonds to provide funds for construction of the 42,800 square foot Aviation Service and Maintenance Facility which was completed in late 2007.

In 2008 the Authority completed construction of two general aviation T-Hangars, installation of two additional escalators in the terminal and installation of new touch down lighting improvements that preserve and enhance aeronautical safety during nighttime, low-visibility, winter and other inclement weather conditions for all aircraft operations by allowing landing with half-mile rather than three-quarter mile visibility conditions.

During 2009 the Authority continued the Latham Water Towers Runway 10-28 obstruction relocation. The Authority also undertook a rehabilitation of an existing hangar, lighting energy upgrades in the parking garage, and several smaller projects involving roof replacement, terminal improvements and improvements in landside buildings.

In 2010 major renovations of six terminal food and beverage concession areas that began in 2009 were completed at a cost of approximately \$3.0 million which was fully funded by the concessionaire. Replacement of all parking garage lighting with more energy efficient lights at a cost of \$156,000 was com

pleted with the aid of a \$54,300 grant. Rehabilitation of the taxiways and ramps for \$2,826,000; construction of a new entry and exit to the remote parking lot providing for additional and interstate highway access at a cost of \$363,300; expansion of glycol storage and replacement of the Type I glycol proportioning system at an estimated total design and construction cost of \$339,000.

Projects completed in 2011 include a parking garage rehabilitation project at a cost of \$896,000, a passenger jet bridge replacement project with a cost of \$581,000, an automated entry and exit station in the economy parking lot at a cost of \$336,274 the relocation and upgrade of the Authority operated retail store (DepARTures) in the Terminal at a cost of \$281,000.

The completion of the Runway 28 obstruction removal, which involved relocation of a municipal water tank at a cost of \$11,187,000 was completed in 2012. Other projects completed in 2012 included the Terminal Floor replacement at a cost of \$821,400 and a Semi-inline Baggage Screening Project with a cost of \$1.1 million.

During 2013 projects completed included Glycol Storage & Processing Improvements to add a new 2.5 million gallon storage tank. During 2013 a project to upgrade the Electrical Vault at a cost of \$1.3 million was advanced along with the rehabilitation of the Administration Building (\$1.7 million).

In 2014 construction began to add a new Runway Friction Material Building at a cost of \$2.4 million; upgrade of an existing commercial Aircraft Maintenance, Repair and Overhaul Facility; construct a new hangar at a cost of \$4.3 million and Rehabilitate Runway 1-19 at a cost of \$4.72 million. These projects were completed by the close of 2015.

During the 2009-2014 Capital Plan the Authority also purchased approximately \$5 million in major equipment including items such as two fire trucks, runway snow blowers, runway brooms, shuttle busses, street sweepers, and other heavy equipment.

During 2015 projects to provide a new terminal roof at a cost of \$1.5 million and the Terminal Baggage Room Renovation at \$1.5 and Glycol Storage and Processing improvements for \$1.1 million were initiated then

CAPITAL DEVELOPMENTS BY THE AUTHORITY, cont.

completed in 2016.

During 2016 a \$3.4 million passenger loading bridge replacement and renovation project and \$1.4 million Fiber Optic replacement project were initiated.

During 2017 a \$3.4 million passenger loading bridge replacement and renovation project and \$1.4 million Fiber Optic replacement project were completed. Also in 2017 a \$4.4 million Runway 01-19 Edge Light Lighting System Replacement and a \$4.2 million phase 2 passenger loading bridge replacements and renovation were initiated.

During 2018 the Airport started a \$1.9 million escalator replacement project in the Terminal and authorized another \$1.0 million passenger loading bridge replacement and numerous smaller projects under \$1.0 million.

Most significantly in 2018 the Airport was awarded a \$22.1 million grant to provide a portion of the funds for a \$42.2 million project to build an additional parking garage, improve parking access, provide terminal rehabilitation and add other passenger amenities. The grant was awarded in conjunction with a \$50 million State-funded Airport highway access project announcement. The new Highway access will be very beneficial for the Airport access to on-airport parking operations.

As of December 31, 2018, the Authority maintained \$538.3 million in capital assets for which \$271.0 million in accumulated depreciation was recorded resulting in \$267.3 million in capital assets net of depreciation. Also at December 31, 2017 the Authority had approximately \$94.2 million of outstanding debt related to these capital assets, which resulted in the Authority reporting \$143.1 million of capital assets net of related debt.

Although most of 2019 was consumed with the construction of the parking garage and the rehabilitation of the airport terminal, there were other airport improvement projects. These included the installation of LED edge lighting for the full length of Runway 1/19 and Taxiway C. Also 2019 included the installation of new full hangar door at the FBO hangar.

As of December 31, 2021, the four (4) passenger boarding bridges have been replaced, and the Airport's first Master Plan in over twenty Years has begun. In addition to these the Taxiway A Rehabilitation project will is essentially completed.

As of December 31, 2022 the Airport Pavement Management Program, and Terminal Fire Alarm Replacement, Hangar 1 Sprinkler, and the Taxiway A projects have all been completed. Also in 2022, Parking Lot C was reverted back into an aircraft apron.

As of December 31, 2023 the Rehabilitation of Rwy 10/28, replacement of Terminal Escalators #22 and #23, replacement of roof on Bldg. #109 (FBO), and the design of Terminal Concourse A have all be completed. Also in in 2023, the airport purchased on loader (\$369,000) and one sweeper (\$580,635).

GLOSSARY

Accrual Basis - Basis of accounting which attempts to record financial transactions in the period they actually occur rather than the period paid or received.

Administrative Expenses - One of the main expense categories and includes the following: memberships, subscriptions, travel, education, and economic development.

Aircraft Operation - Considered either a landing or take-off of an aircraft.

Airfield Operations Area (AOA) - Generally considered the restricted area within the security fence surrounding an airport which is reserved for aircraft and related operations. This includes the landing area and ramp area, and other facilities supporting the activity of military, general aviation and commercial aircraft.

Airfield Revenues - One of six operating revenue categories which include landing fees, glycol disposal fees, apron fee, and the control tower rental fees.

Airline Use and Lease Agreement (Agreement) - An agreement with one or more airlines setting forth the rights of the airlines for their use of the airport and the rates and charges they will pay.

Airline Revenues - Landing fee revenues, loading bridge revenues, apron fees, and terminal rental revenues.

Airport Revenue Bonds - Bonds payable from Airport revenues which do not pledge the full faith and credit of the issuer.

Airport Security Plan (ASP) – A federal requirement for security at the Airport.

Ambassador Program – A program comprised of volunteers that are tasked with providing excellent customer service through offering friendly and accurate assistance about airport services and facilities, as well as offering flight assistance and tourism information in a friendly and welcoming manner that meets and exceeds passenger and visitor expectations.

Apron - A section of the ramp area closest to the terminal building used for parking of aircraft and support vehicles used for loading and unloading of aircraft.

ARFF - Airport Rescue and Fire Fighting, the on-airport unit responsible for airfield emergencies and fire fighting.

Authority - Albany County Airport Authority, a body corporate and politic, constituting a public benefit corporation established and existing pursuant to the Albany County Airport Act enacted by Chapter 686 of the laws of 1993 and set forth in Title 32 of the New York Public Authorities Law.

Automated External Defibrillator (AED) - A portable automatic device used to restore normal heart rhythm to people who are in cardiac arrest.

Biochemical Oxygen Demand or Biological Oxygen Demand (BOD) A chemical procedure for determining how fast biological organisms use up oxygen in a body of water. It is used in water quality management and assessment, ecology and environmental science. BOD is not an accurate quantitative test, although it could be considered as an indication of the quality of a water source. BOD can be used as a gauge of the effectiveness of wastewater treatment plants.

Cargo - Anything other than passengers, carried for hire, including both mail and freight.

Capital Improvement Program (CIP) - A five year program for regularly undertaking improvements to maintain or revitalize the infrastructure and facilities of the airport. The program serves as a basis for determining funding requirements and other operational planning decisions.

C Index - FAA regulation that dictates a certain number of vehicles to maintain the Airport.

COLA - Cost of living adjustment

Concessionaire - A person or company having a lease, contract or operating permit arrangement with the Authority entitling them to do business on the airport.

Concession Revenue - One of six operating revenue categories which include terminal concessions, advertising, and the business center.

Cost Centers - Functional areas or activities of the Airport grouped together for the purpose of accounting for expenses.

Glossary, continued

Cost Per Enplanement (CPE) - A unit of measurement used to present the airlines' cost of each enplaned passenger. The total airline revenues paid to the airport are divided by the number of passenger enplanements to calculate the cost per enplanement.

County - County of Albany, home of the City of Albany; the state capital of New York.

Disadvantaged Business Enterprise Program (DBE) – Program required by Congress as a condition of receiving federal funds.

Debt Service - The amount required for the accrual and payment of principal, interest, and premiums, if any, and other fees and amounts associated with all series of Bonds and Indebtedness, as set forth in any Resolution(s) or other financing documents(s) of the County or Authority.

Debt Service Coverage - An amount equal to Airport Net Revenues divided by Net Debt Service.

Debt Service Reserve Fund - Any fund(s) established by the Authority for monies necessary to satisfy any Debt Service Reserve Requirement established in any Resolution(s) or other financing document(s) of the County or Authority generally equal to the highest annual amount due in the remaining years of the debt issue.

Debt Service Reserve Requirement - Requirement, if any, for the Debt Service Reserve Funds for all series of Bonds or other indebtedness.

Deplanement - A passenger departing an aircraft at the Albany International Airport.

Enplanement - A paid passenger boarding an aircraft at the Albany International Airport.

Federal Aviation Administration (FAA) - The government agency responsible for air safety and operation of the air traffic control system.

FAA Regulation Part 139 - This regulation establishes the requirement for airports servicing scheduled air carrier operations in aircraft with 10–30 seats and provides airport certification status, class and ARFF Index to assist air carriers.

FAA Regulation Part 150 - This regulation establishes a uniform nationwide system of describing aircraft noise and noise exposure on different communities, describes land-use compatibility for the guidance of local communities, and provides technical assistance to airport operators and other governmental agencies to prepare and execute noise compatibility planning.

Federal Inspection Station Facility (FIS) - The facility used as the Federal Inspection Station for United States Customs and Immigration.

Fixed Base Operator (FBO) - A fixed based operator provides aircraft fueling, deicing and maintenance for the general aviation customers.

FBO Revenue - One of six operating revenue categories which include the sale of fuel for aircrafts, landing fees for the general aviation population, deicing of aircrafts, and other miscellaneous fees for the general aviation population.

Fuel Farm - Operated by Million Air and used to store fuel for the airlines and retail general aviation sales.

GAAP - General Accepted Accounting Principals are uniform minimum standards and guidelines for accounting and financial statement reporting.

GASB - Governmental Accounting Standards Board, the body responsible for establishing GAAP for governmental entities.

Glycol Containment System - The system designed to contain and transfer all snow and rain contaminated by Propylene Glycol used to deice an aircraft during the winter season.

Ground Transportation Revenues - One of six operating revenue categories which includes airport parking revenues and access fees from limousines, hotels/motels, taxis, and off airport parking facilities.

International Passengers - Passengers flying into or out of Albany International Airport with an origin or destination outside the 50 states and all U.S. territories.

Into-plane Fees – Revenue generated based on fuel pumped for the commercial airlines.

Glossary, continued

Landing Fee Revenues - Revenues collected from commercial aircraft landings.

Loading Bridge - Equipment used to board and deplane passengers between the terminal building and the aircraft.

Low-Volume Air Carrier - A Non-Signatory Airline with seven or fewer scheduled revenue flights departing from the Airport with an aggregate of no more than 700 departing passenger seats each calendar week.

Materials and Supplies Expense - One of the main expense categories which include materials and supplies purchased for airfield, ARFF, FBO, buildings, grounds, and vehicles and equipment.

Maximum Gross Landed Weight (MGLW) - Actual gross weight of a particular plane. The weights for all aircraft are published by the FAA.

National Air Transportation Association (NATA) - Organization that promotes safety and the success of aviation service businesses through its advocacy efforts before government, the media and the public as well as providing valuable programs and forums to further its members prosperity.

Non-Capital Equipment - Equipment, under \$50,000, not covered under the Capital Improvement Program, included within the operating budget.

Non-Signatory Airline - An airline or carrier who did not execute the airline use and lease agreement with the Authority.

Non-Operating Revenues - Revenues which are generated from passenger facility charges, improvement charges and interest income.

Occupational Safety and Health Administration (OSHA) Reportable Incidents – An incident is reportable if it meets any of the following criteria: fatality, hospitalization, amputation and/or loss of an eye.

Office Expense - One of the main expenses that includes office equipment rental, agreements, and repairs; computer system support, maintenance, and agreements; office furniture and fixtures; and other supplies required to run normal activity in the administrative offices.

Operating Revenue - Revenues which are generated from the daily operations of the airport which include the revenues from Airfield, Fixed Based Operator, Terminal, Ground Transportation, Concessions and Other Airport.

Other Airport Revenue - One of the six operating revenue categories which include land and building rental of off-airport property owned by the airport, T hangar and tie down rentals, utilities and miscellaneous items.

Operating and Maintenance Reserve Requirement - The requirement of the Resolution(s) and other finance document(s) of the Authority that a reserve can be created and maintained sufficient to pay not less than two months of budgeted operating and maintenance expenses.

Over-the-Wing (OTW) - The loading bridge attaches to the rear door of the plane over the wing of the plane to enplane passengers.

Passenger Facility Charges (PFC) - A \$4.50 per passenger surcharge collected by the airlines and forwarded to the Authority to pay for Airport capital projects or to be applied to the Airport's required debt service payments as approved by the Federal Aviation Administration.

Personnel Services - One of the main expense categories which includes all wages, salaries and benefits.

Per Use Terminal Fee - A fee paid by a Low-Volume Carrier for use of the Airport Apron, Terminal and Equipment as provided for in the Signatory Airline Agreement.

Purchased Services - One of the main expense categories which include services purchased for accounting and auditing, insurance, legal, security, refuse removal, public relations, art exhibits, museum shop, advertising, passenger information booth, special studies, engineering services, professional management and code enforcement.

Glossary, continued

Revenue Per Enplanement (RPE) - A unit of measurement calculated by taking certain airport revenues divided by the number of enplanements.

Signatory Airline - An airline that has executed an agreement with the Authority and is charged fees in accordance with the Airline Use and Lease Agreement.

Terminal Revenue - One of the six operating revenue categories which includes rental of the terminal space, loading bridge rentals, tenant maintenance, and utilities.

Transportation Security Agency (TSA) – The Department of Homeland Security responsible for protecting the Nation's transportation systems (including airports) to ensure freedom of movement for people and commerce.

Utilities and Communications - One of the major expense categories which include electricity, fuel, sewer, water, telephone, internet, radio communications, paging services, and cable television.

HISTORY OF THE AIRPORT

Albany Airport, *America's First Municipal Airport* consisted of an airfield developed in 1909 along the Hudson River on what is now known as Westerlo Island, in the southeastern portion of the City of Albany. At one time, the airport was named Quentin Roosevelt Field in memory of President Theodore Roosevelt's son, Quentin, who was killed while flying in France during World War I.

The airport played an integral role in the early history of American aviation when Glen H. Curtiss flew from Albany to New York City on May 29, 1910. This achievement, which was the first sustained flight between two major American cities, opened the way to airmail and passenger flights, and thus the establishment of commercial aviation in this country. It is noteworthy that Charles Lindbergh landed his *Spirit of St. Louis* at Quentin Roosevelt Field on July 27, 1927 following his completion of the first nonstop solo flight from New York to Paris.

Shortly before Lindbergh's landing at Albany, plans were being considered to relocate the airfield to land owned by the Watervliet Shakers in what is now the Town of Colonie. Eventually, the Airport was moved to its current location and officially opened as Albany Municipal Airport on October 1, 1928, giving it the distinction of being America's first municipal airport. Albany Municipal Airport was owned and operated by the City of Albany until 1960. At that time, the city determined that it could no longer afford to finance the airport, and ultimately sold the facility to Albany County for \$4,437,000. The County embarked on the construction of a terminal building in 1959. The terminal opened in 1962 and was regarded as the beginning of a new era for the airport.

Construction of a second terminal building, offering the first enclosed jet ways at the Airport, was started in 1979 and completed in 1982; as was the last of several runway extensions which lengthened the original 3,000 foot and 4,000 foot runways to 6,000 and 7,200 feet, respectively. The airport then was able to routinely handle large aircraft including 727s, 737s, and DC-9s. Through the years many presidents, either as candidates or in office, have visited Albany Airport. These include Franklin D. Roosevelt, John F. Kennedy, Richard Nixon, William J. Clinton, and Barack H. Obama. In November 1994, and September 2009, 2011 and 2012 the President of the United States visited Albany traveling on Air Force I, a 747 aircraft.

The progressive growth and development of Albany County Airport has also been evidenced by the number of airlines operating out of Albany. When the main terminal opened in the early 1960s, the airport was served by only four carriers. Over the next 35 years, passenger levels increased from 400,000 in 1964 to over 2.1 million in 1994. In 1994, Albany was served by eight commercial airlines and six commuter carriers. Currently Albany is served by five commercial airlines and 17 commuter carriers.

ALBANY AIRPORT AUTHORITY CREATED

The Authority was created in 1993 pursuant to the Albany County Airport Authority Act, Title 8, as amended, of the State of New York Public Authorities Law (Act). The County of Albany (County) and the Authority entered into a permanent Airport Lease Agreement dated December 5, 1995, which became effective May 16, 1996 following approval by the Federal Aviation Administration (FAA) for the transfer of the sponsorship of the Airport from the County to the Authority. Under the lease agreement, for a term expiring December 31, 2049, the County leases to the Authority the Airport, including all lands, buildings, structures, and easements, right of access, and all other privileges and appurtenances pertaining to the Airport. The Airport is a body corporate and politic constituting a public benefit corporation established and existing pursuant to the Act. The State created the Authority in order to promote the strengthening of and improvements to the Airport and to facilitate the financing and construction of the initial Terminal Improvement Project (TIP), other subsequent capital improvement plans, and give the Authority the power to operate, maintain and improve the Airport.

On March 15, 1994, the County transferred net assets equal to \$46,824,500 from the County to the Authority.

In March 1998 the airport was renamed the Albany International Airport in recognition of past and projected increased activity at the airport and to recognize the presence of the Federal Inspection Services operated by the U.S. Customs and Border Protection Agency.

Under a subsequent amendment to the Agreement dated June 29, 2005, the Authority leases two additional parcels totaling approximately 3.4 acres that the Authority developed for additional parking. The Authority paid the County as of that date \$478,500 as consideration.
